**It's my honor to stand here and say something about friendship.**

**First**, I think everyone needs friends and is eager to get friendship. When you are happy, you can share your happiness with your friends and when you are sad, you can complain to your friends. If you are arrogant, your friends can persuade you and they can make you confident and brave when you are discouraged.

**Second, as we all know**, friendship is valuable. It can touch your heart and give you hope. Many people are proud of having a good friend. We must cherish our friends when we are happy with our friends. We should try our best to protect the friendship from being hurt.

We will meet a lot of friends in our life. We should find the people who can understand us and share not only happiness but also sadness. When you lose it, both you and your friend will feel very sorrowful. So you can't give up those friends, please don't forget to keep in touch with your old friends, because staying with old friends is cherishable.

**Finally, just as an old saying goes,** love comes and goes but friendship stays. It's sweet and poetic, full of tears, hopes and happiness. **So let's cherish friendship!**

**That's all. Thank you for listening.**
