

DIGITAL & TRENDS

# Energy storage in the U.S.

# Table of Contents

## 01 Overview

|                                                                                       |  |
|---------------------------------------------------------------------------------------|--|
| Global outlook on electricity generation 2022-2050, by energy source                  |  |
| Cumulative global energy storage deployment 2022-2031                                 |  |
| Global installed base of battery-based energy storage projects 2022, by main country  |  |
| Capacity of planned battery energy storage projects worldwide 2022, by select country |  |
| Global pumped storage capacity 2022, by leading country                               |  |
| Grids and battery storage investments worldwide 2015-2023                             |  |
| Global investment in battery electricity storage capacity 2015-2021                   |  |
| Levelized cost of electricity in the U.S. H2 2022, by technology                      |  |

## 02 Key market indicators

|                                                                                |  |
|--------------------------------------------------------------------------------|--|
| Rated power of energy storage projects in the U.S. 2021, by technology         |  |
| Share of energy storage projects in the U.S. 2021, by technology               |  |
| Non-hydro commissioned energy storage capacity additions in the U.S. 2014-2022 |  |
| Power capacity additions of energy storage systems in the U.S. Q1 2022-Q2 2023 |  |
| Largest energy storage projects in the United States 2023, by capacity         |  |

## 03 Batteries

|                                                                            |  |
|----------------------------------------------------------------------------|--|
| U.S. battery storage capacity additions 2017-2023                          |  |
| U.S. battery storage facilities 2022, by year of operation                 |  |
| Battery storage pipeline capacity in the U.S. 2023, by stage and component |  |

|                                                                     |    |
|---------------------------------------------------------------------|----|
| U.S. operative battery storage capacity 2022, by leading state      | 21 |
| Battery storage usage factor in the U.S. 2013-2022                  | 22 |
| U.S. large-scale battery installations breakdown 2022, by chemistry | 23 |
| U.S. large-scale battery power storage breakdown by ownership 2022  | 24 |

## 04 Pumped storage

|                                                                      |    |
|----------------------------------------------------------------------|----|
| Pumped storage capacity in the U.S. 2010-2022                        | 26 |
| U.S. pumped storage hydropower capacity 2022, by state               | 27 |
| U.S. pumped storage hydropower facilities 2022, by year of operation | 28 |
| Monthly pumped storage usage factor in the U.S. 2020-2023            | 29 |

## 05 Outlook

|                                                                                    |    |
|------------------------------------------------------------------------------------|----|
| Power capacity in interconnection queues in the U.S. 2010-2022, by source          | 31 |
| Projected power capacity additions of energy storage systems in the U.S. 2023-2027 | 32 |
| Projected electricity generation from storage in the U.S. 2022-2050                | 33 |
| Projected electricity generation from storage in the U.S. 2022-2050, by scenario   | 34 |
| Large-scale battery storage projects forecast after IRA in the U.S. 2021-2030      | 35 |

CHAPTER 01

# Overview

# Projected electricity generation worldwide in 2022 with a forecast to 2050, by energy source (in 1,000 terawatt-hours)

Global outlook on electricity generation 2022-2050, by energy source

# Projected cumulative deployment capacity of energy storage market worldwide in 2021, with forecast figures to 2031 (in gigawatt-hours)

Cumulative global energy storage deployment 2022-2031

# Installed capacity of electrochemical energy storage projects worldwide in 2022, by leading country (in megawatts)

Global installed base of battery-based energy storage projects 2022, by main country

# Capacity of electrochemical energy storage projects in the pipeline worldwide in 2022, by leading country (in megawatts)

Capacity of planned battery energy storage projects worldwide 2022, by select country

# Capacity of pumped storage hydropower worldwide in 2022, by leading country (in megawatts)

Global pumped storage capacity 2022, by leading country

# Clean energy investments in power grids and battery storage worldwide from 2015 to 2023 (in 2022 billion U.S. dollars)

Grids and battery storage investments worldwide 2015-2023

# Investments in battery electricity storage capacity additions worldwide from 2015 to 2021 (in billion U.S. dollars)

Global investment in battery electricity storage capacity 2015-2021

# Levelized cost of electricity (LCOE) in the United States in 2nd half 2022, by energy technology (in nominal U.S. dollars per megawatt-hour)

Levelized cost of electricity in the U.S. H2 2022, by technology

## CHAPTER 02

# Key market indicators

# Rated power of energy storage projects in the United States in 2021, by technology (in megawatts)

Rated power of energy storage projects in the U.S. 2021, by technology

# Distribution of energy storage projects in the United States in 2021, by technology

Share of energy storage projects in the U.S. 2021, by technology

# Annual capacity additions of non-hydro energy storage projects commissioned in the United States from 2014 to 2022 (in megawatts)

Non-hydro commissioned energy storage capacity additions in the U.S. 2014-2022

# Installed power capacity of energy storage systems in the United States from 1st quarter 2022 to 2nd quarter 2023 (in megawatt-hours)

Power capacity additions of energy storage systems in the U.S. Q1 2022-Q2 2023

# Leading energy storage projects in the United States as of 2023, by capacity (in megawatts)

Largest energy storage projects in the United States 2023, by capacity

CHAPTER 03

# Batteries
