Typographic Conventions

Type Style	Description
<i>Example text</i>	Words or characters that appear on the screen. These include field names, screen titles, pushbuttons as well as menu names, paths and options. Cross-references to other documentation.
Example text	Emphasized words or phrases in body text, titles of graphics and tables.
EXAMPLE TEXT	Names of elements in the system. These include report names, program names, transaction codes, table names, and individual key words of a programming language, when surrounded by body text, for example, SELECT and INCLUDE.
Example text	Screen output. This includes file and directory names and their paths, messages, source code, names of variables and parameters as well as names of installation, upgrade and database tools.
EXAMPLE TEXT	Keys on the keyboard, for example, function keys (such as F2) or the ENTER key.
Example text	Exact user entry. These are words or characters that you enter in the system exactly as they appear in the documentation.
<Example text>	Variable user entry. Pointed brackets indicate that you replace these words and characters with appropriate entries.

Create Trading Good (HAWA) Material

1 Purpose

With this document you create a trading good material.

2 Prerequisites

2.1 Business Conditions

The activities described in this document are part of a bigger chain of integrated business processes or scenarios. As a consequence, you must have fulfilled the following business conditions before you can start the activities described in this document:

Business condition	Scenario
Create Batch Classification – optional if you want to use batch management functionality	<i>Create Batch Classification (155.62)</i>

2.2 Roles

Use

The following roles must have been installed to test this scenario in the SAP NetWeaver Business Client (NWBC). The roles in this Business Process Documentation must be assigned to the user or users testing this scenario. You do not need these roles if you are not using the NWBC interface, but the standard SAP GUI.

Prerequisites

The business roles have been assigned to the user who is testing this scenario.

Business role	Technical name	Process step
Employee (Professional User)	SAP_NBPR_EMPLOYEE_S	<i>Assignment of this role is necessary for basic functionality.</i>
Purchasing Administrator	SAP_NBPR_PURCHASER_K	<i>Create Material</i>

3 Process Steps

3.1 Creating Trading Good (HAWA) Material

Use

A new trading material is needed.

Procedure

1. Access the transaction choosing one of the following navigation options:

Option 1: SAP Graphical User Interface (SAP GUI)
