# 少儿培训机构管理系统的设计与实现

## 摘要

随着时代的发展，现今的家长对于孩子的教育也显得越来越重视，很多家长为了让孩子不输在起点，因此让他们学习很多的内容。由于在这样的背景下，新的商机也随之而来，现今市面上的培训机构也越来越多特别是对于儿童的，培训机构多起来以后新的问题也会随之而产生，从教育教学上机构因材施教、分类教学，在管理上实现，线上、线下一体化管理，而大多数培训机构并未配套一个完整的培训机构管理系统。

本次项目主要有六个部分，现在分别说一说这几部分。第一部分肯定是绪论，阐述本次项目的灵感来源和大概的构思。第二部分就是项目需要用到的简单到技术讲解。第三部分就是对项目的进行需求分析。第四部分也是最重要的部分本次项目的系统设计。第五部分就是项目如何实现和在这个过程出现的问题。最后一部分就是项目的完成后的测试和检验。

本次毕业设计采用科学化、人性化的需求调研方式，倾相性地调研培训机构在线上管理和教育教学的重点与难点，然后使用前后端分离架构系统的方式，选用 Java 作为系统开发的语言，并选用 Java 成熟且稳定的技术 SpringBoot 来完成系统的开发,最后经过白盒测试、功能测试完成系统的测试及上线。

**关键词：**Java；SpringBoot；培训机构管理系统

## ABSTRACT

With the development of the times, parents pay more and more attention to their children's education. In order to keep their children from losing, many parents let them learn a lot. In this context, new business opportunities are also coming. Nowadays, there are more and more training institutions on the market, especially for children. When there are more training institutions, new problems will arise. In terms of education and teaching, institutions teach students according to their aptitude and classify them. In terms of management, online and offline integrated management is realized, while most training institutions do not complete a complete set The whole training organization management system. This graduation project adopts scientific and human-oriented demand survey method to investigate the key points and difficulties of online management, education and teaching of training institutions, and then uses the method of separating front and back architecture system, selects Java as the system development language, and selects the mature and stable Java technology springboot to complete the system development, Finally, through white box test and function test, the system is tested and online.

**Keywords:**JAVA; SpringBoot;Training organization management system.
