bird-flu

chickenpox

# Word Game

sudden illness with violent beating  
of heart attack                      heart attack

the system that controls the blood  
sugar level goes wrong              diabetes

It can develop in any part of people's  
body, often causing death. Now no  
way can be used to cure this disease.

cancer

heart attack

diabetes

cancer

**diseases**

phthisic, measles(麻疹), flu, ...

**A:** Karen want to study medicine and be a doctor. Her aunt is showing Karen around the hospital. Let's go together.

Read the passage as quickly as you can.

**Welcome to our hospital !**

Auckland City Hospital Reception

First, you can go to  
our reception to register  
or find out information.

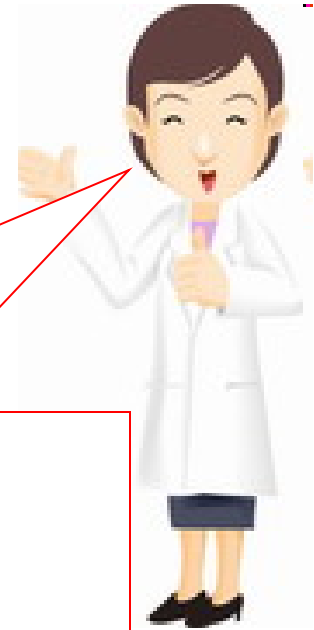

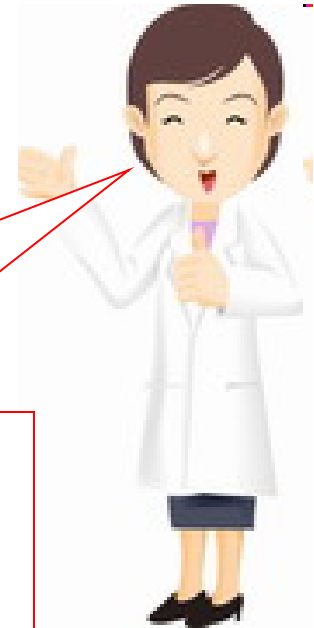

Then, you can go to  
our consulting room to see  
the doctor.

ENT is a department where doctors look after your nose, ear and throat.

X-ray room is a place where pictures of you body parts are taken.

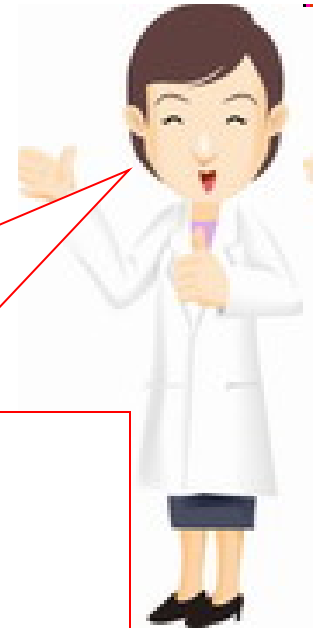

Emergency room is a place where patients who need urgent treatment go.

Operating theatre is a place where operations are carried out.

ICU is a place patients receive intensive care.

Ward is a place  
where patients sleep.

## Part C

Read the passage and help Karen choose correct words to fill in the diary entry in Part C (1-5).
