开发社团管理系统

摘 要

学生社团——一个熟悉的聚集名词，相信很多大学新生在自我介绍的时候都愿意加一句：我是某某社团的。社团标签的存在代表了一群兴趣相投的人，同时社团的特有文化吸引力许多新人前来加入，社团不只是一个代称，还是社团人共同的信仰。学生社团丰富课余生活的同时还加大了校园艺术文化的氛围，每次社团招新，社团文化节都成为校园风景中一道靓丽的风景线。社团文化也越发作用于学生技术能力的提高，变成提高学生技术能力学习的第二课堂。

高校学生社团应积极开展有趣有技术、丰富且精彩的涉及科技、文化、艺术新媒体等活动。学生社团不仅仅是锻炼学生的动手、组织管理、言语交谈的能力，还要为走向社会工作埋下结实的基础，让社会了解社团属性、了解社团丰富的技术储备和人才储备，并建立其社会与社团的沟通联络渠道，提供高校社团学习的资源，与此同时还要让学生团体之间建立联系，取长补短。

当前的大学校园中，80%的大学生在大一的时候参与了一或多的社团组织。每个高中生入学后，学校就会组织一次大学生社团招新活动，每个社团在这个时候会进行大量的宣传扩大招新。但是，传统化的社团管理也带来了大量的人力物力投入，也增加了社团管理者的负担，同时某些方面的管理效率低下浪费了学生过多的时间精力，也不利于社团更好的发展。

所以毕业之际，选择一个开发社团管理系统的题目，将 B/S（Browser/Server 即浏览器/服务器模式。线上同步，保证所有拥有互联网功能的智能设备(手机，平板，笔记本电脑)上通过浏览器直接运行程序。）的模式[1]。并且将这种模式嵌入大学生社团管理系统的开发当中。该系统的开发不仅在运用过程中操作简便，在社团管理上效率高效。系统上线后，使用者可以在网上直接浏览学校社团的各种信息以及活动通知，用户可以根据自身的喜好参加社团组织的各种活动，加强了同学与社团之间的联系，同时减少了社团活动管理的难度，也减少了纸质文件的使用，绿色环保。

Abstract

Student club - a familiar collective noun, I believe that many college freshmen are willing to introduce themselves to add: I am a member of XXX club.The existence of the club label represents a group of people with similar interests. Meanwhile, the unique cultural attraction of the club attracts many new people to join it. The club is not only a proxy, but also a common belief of the people of the club.The student societies not only enrich the extracurricular life, but also enhance the campus artistic and cultural atmosphere. Every time the societies recruit new members, the culture festival of the societies becomes a beautiful scene in the campus landscape.Community culture also plays an increasingly important role in improving students' technical ability and becomes the second classroom to improve students' technical ability.

College student associations should actively carry out interesting, technical, rich and wonderful activities involving new media of science and technology, culture and art.Student associations, organization and management is not only exercise students' practical and speech ability of conversation, and for moves towards social work laid solid foundation, let the society to understand community and community property rich technical reserves and personnel reserve, and to establish its social contact corporate communication channels, and provide the community learning resource, at the same time let students establish contact between groups, complement each other.

On current college campuses, 80% of college students participate in one or more organizations during their freshman year.After each high school student enters the school, the school will organize a college student association recruitment activity, each association at this time will carry out a lot of publicity to expand the recruitment of new.However, the traditional society management also brings a lot of manpower and material resources input, and also increases the burden of the society managers. Meanwhile, the inefficient management in some aspects wastes too much time and energy of students, which is not conducive to the better development of the society.

So graduation, chose the topic of community management system development, will B/S (Browser/Server, Browser/Server mode.Sync all Internet browser-enabled devices (phones, tablets, laptops) to run programs directly from the browser.And

embed this model into the development of college student community management system.The development of this system is not only easy to operate in the process of application, but also efficient and efficient in community management.System after online, users can browse school directly online community of all kinds of information and event notifications, users can according to oneself be fond of participate in the activities of social organizations, to strengthen the connection between the students and society, at the same time reduce the difficulty of community management, also reduce the use of paper documents, green environmental protection.
