Abstract

Beethoven is a famous pianist and composer in Germany. He is one of the three masters of Vienna classicism after Haydn and Mozart. Among Beethoven's rich musical works, his 32 piano sonatas play a very prominent role in the history of music, and these works have a very profound influence on the later composers and piano players. Beethoven's piano sonata in c minor (op.13) is the most important representative work in his early creation, and also an important turning point in his music creation. This paper briefly introduces Beethoven's life and music creation, including the background of piano sonata in c minor (op.13). Through the music analysis and playing hints of the third movement of piano sonata in c minor (op.13), this paper expounds the problems that should be paid attention to when playing and the accurate grasp of emotion.
