

山东省 2023 年中考英语模拟试卷及答案汇总三

一、完形填空 (15 分)

阅读短文，从每题 A、B、C、D 四个选项中，选出一个能填入文章中相应空白处的最佳答案。

For my 56th birthday, my daughter Beth bought me two beautiful wooden butterflies. I hung them on my wall so that I can see them during the day. They often remind me of 1.

Our love of butterflies goes 2. many years. My mom died of cancer (癌症) when I was only 25 years old. Beth was only a baby at that time and had no memories of her 3.. I try to make up for it by telling stories of my mom to her. But each time I told, Beth looked a little 4. for I could always see tears (眼泪) in her eyes. One day when we were at the playground, Beth suddenly said how much she 5. to have her grandma around, seeing other happy kids with grandmas. This time I told her how much her grandma loved her. I said grandma was 6. over her from Heaven (天堂) and maybe she was even taking a 7. on the back of a butterfly to come down. At that very moment, a butterfly 8. flying around Beth's face and then it flew away. Then we both laughed with our 9. full of love and joy.

Since then, both Beth and I have seemed to attract (吸引) butterflies like flowers. 10. we stay outside, they would fly down to us. As they 11. around us, Beth always reaches out hands and dances with them. And each time we are reminded of my mom's love as if she never 12.. The only time this doesn't happen is during the coldest months of the year because 13. insects can get through freezing weather. Now during those times I can take a look at the two butterflies my daughter bought 14.. We all need reminders that we are loved by those who have passed away and those who are still 15. us.

阅读下列短文，从每题 A、B、C、D 四个选项中，选出一个能回答所提问题或完成所给句子的最佳答案。

What is your dream job, a pilot or a singer? What do you hope your job is like? Here are some jobs called testers. Would you like to join?

The Sweetest Job

Will you come and be a sweet tester in our candy factory? It is probably the best job you have ever heard. When a new sweet is invented, it will be sent to you. What you need to do is to eat it and writes a report about it. Then a decision is made about whether to produce it or not.

You will be paid 100 dollars each time, but not sure how often.

Call us at 349-9878.

Lonely Island Job

Do you wish to live on a beautiful island and get paid? Here is such a job that you have to stay on an island on your own in a small house. You spend every day (30 days in total) swimming, exploring (探索) and hiking. Then you have to write a report to show if the island is good enough to develop tourism.

You will be paid 150 dollars a day.

阅读下列短文，从每题 A、B、C、D 四个选项中，选出一个能回答所提问题或完成所给句子的最佳答案。

March 14 is Pi(π) Day, the yearly celebration of a never-ending number— π (3.14159...). The tradition began on March 14, 1988, when a scientist, called Larry Shaw, connected March 14 (3.14) with the number of (3.14159...) and asked his teammates to mark the day by eating pies. Later, more and more people began to celebrate Pi Day each year, and in 2009 the US lawmakers announced Pi Day an official holiday. Pi Day has been noticed in different ways by different groups of people in America.

Restaurants celebrate Pi Day with special selling of pies. Blaze Pizza has continued its tradition by offering a kind of pizza for just \$3.14. Blaze Pizza's boss Jim Mizes said. "We guessed that we would serve as many as a quarter-million pizzas at \$3.14 and even more on Pi Day of this year. We think Blaze fans across the US and Canada would come in to celebrate with us."

Some women scientists also celebrate Pi Day. Since 2015, to encourage more girls to work on science, technology, engineering and mathematics, some women scientists have been wearing purple on Pi Day. They also ask women of all ages and backgrounds to join them by wearing the same color on March 13-14.

NASA's Jet Propulsion Laboratory will join in the fun with their yearly "Pi in the Sky" challenge. The fun activities are designed to encourage students from 5th to 12th grade to help NASA scientists solve real-world problems using π . Each year, many students take the "Pi in the Sky" challenge to help NASA scientists with their scientific research, which greatly **benefits** students in their future study.

Though Pi Day celebrations are rather new, π has been around for thousands of years. 4,000 years ago, Babylonians calculated (计算) the area of a circle, giving n a value of 3. The ancient Egyptians came closer to the real number with 3.165 in 1650 BC. Archimedes of Syracuse (287-212 BC) was the first to calculate it mathematically. The Greek scientist gave his number between $3+(1/7)$ and $3+(10/70)$, which is much closer to "3.14159...".

31. What can we learn about Pi Day from Paragraph 1?

- A. Larry started the tradition of making pies.
- B. The American scientists made it official.
- C. It has become popular across the world.
- D. The date came from the number of π .

32. How does Jim Mizes feel for the pie sale on Pi Day this year?

- A. Doubtful. B. Hopeful C. Upset. D. Surprised

33. Why do women scientists wear purple on Pi Day?

- A. To make women get more respect
B. To help women look more pretty.
C. To encourage girls to work like them.
D. To inspire women of all ages.

34. What does the underlined word "benefits" in Paragraph 4 most probably mean?

- A. Builds up. B. Does good to. C. Brings out. D. Let down.

35. What does the writer mainly introduce about Pi Day?

- A. The food. B. The history.
C. The date. D. The popularity.

阅读下列短文，从每题 A、B、C、D 四个选项中，选出一个能回答所提问题或完成所给句子的最佳答案。

If you ever run into Brad Pitt, chances are he won't recognize (识别) you the second time around. That's because the famous actor has face blindness (脸盲症).

Face blindness, is the inability to recognize or remember faces, including one's own. It can cause problems in relationships and in the workplace. Some people with face blindness also have difficulty recognizing animals and telling the differences between objects, such as cars. Others have a much harder time and experience nervousness, depression and fear of social situations.

There are two main kinds of face blindness. Acquired face blindness is caused by brain damage (损伤). Harm to the right side of the brain is more likely to influence your ability to recognize faces you used to know. It is lesser-known and may take a turn for the better. The other main kind of face blindness is born with or developmental, which is much more common. Although it was considered hard-to-find before, scientists now estimate (估计) as much as 2.5 percent of Americans may be developing it. The cause of developmental face blindness is still unknown, but it does appear to run in families. A person with the second kind of face blindness never fully develops the ability to recognize faces.

Adults with face blindness may not realize that other people can recognize and remember faces. They may think they are the "normal" ones. However, a person who develops face blindness following a damage may notice

The Comic Relief, a group that helps people in need, uses laughter to raise money. Every two years in spring, many English people put on a red nose, make a fool of themselves. 52. Examples of "silly things" you can do are:

*Invite friends round to your house to watch funny films. They have to pay to watch the films—those with the most comfortable chairs pay more—and for food and drinks.

*Hold a talent show at school and ask your friends, classmates and teachers to sing, dance or tell jokes. 53.

*Have a "red nose party" at your house. All your friends come dressed in red—including red nose—and you serve red food and drinks. 54.

The group has helped people for more than 30 years now. 55. More than 1 billion pounds! The idea of Red Nose Day has travelled to other countries, too. In New Zealand, for example, people have made big red noses which they put on the fronts of cars and even buildings.

- A. If they don't wear red to the party, they'll be punished to pay.
- B. They also do "silly things" to make themselves and others laugh.
- C. Play a trick on your friends to cheer them up.
- D. Try to laugh a lot, develop a sense of humour and watch funny films.
- E. And how much money have they raised since the first Red Nose Day?
- F. Sell tickets for the show to the rest of the school.
- G. All the doctors think laughing is good for health.

六、情境运用 根据所提供的图片，用一个完整的句子提问或应答。(10分)
