(2024·江苏南通高二期末)

Sports movies are fun, but have you ever watched a sports movie that doesn't even seem like it's about sports? Let me give you an option, *Remember the Titans*. A high school football team is forced to integrate, bringing together players from different racial backgrounds. Coach Herman Boone, played by Denzel Washington, takes charge and helps the team overcome their differences and work together. Amidst challenges and resistance, the players learn to respect and support each other. Through hard work and determination, they become a united team, overcoming prejudice and achieving success on the field.

At the beginning of the movie, a white person murders a black person and there's a riot(骚乱) going on. Debatable as it is, to be honest, we rarely get to see movies like *Remember the Titans* now. This is a movie that shows hard work and love can triumph over anything in life and we can feel the actual potential of the human spirit and courage.

What makes *Remember the Titans* an instant classic? It is part heartwarming drama, part true story, part action; all of this is mixed with a banger soundtrack. This is the kind of film that actually transcends all genres, which is not very common today. When was the last time you came across such a movie that impressed you so deeply?

Considering the actual script of the movie, it was an impossible task to actually release the movie. No one was willing to publish the movie. The movie's writer Gregory Allen Howard was refused from every movie house because of the race issue highlighted in the movie. Through lots of struggles, the movie was adapted by Disney, even though it was toned down to make it more "Family-Friendly".

I have seen a lot of movies till now, can't even begin to count them but there are some movies that take your emotions on a roller coaster. They are more than movies actually. You become a part of them as they become a part of you. *Remember the Titans* is that kind of movie and I believe that every viewer can learn some life-changing things from it.
