In order to gain more knowledge, we students spend lots of time on our study. In my opinion, students should spare some time to labor.

First of all, labor is our traditional virtue. Everyone needs to labor, including our students. In addition, labor can give us a chance to practise.

There are many ways for students to labor. For example, doing housework at home is available. Students can plant trees or help collect rubbish to make our environment better. Besides, students can choose to go to the factories to experience the labor.

【答案】例文:

### Should Young Students Learn to Do Housework?

As you can see in the picture, a little boy who is doing housework says to his mother, "could you pay more?" Obviously, he regards housework as a way to make money. I don't agree with his words. I think it's our responsibility to do housework. Teenagers should learn to do housework actively.

I often help my parents do housework. At home, I usually clean the room, do the laundry and make my bed. Sometimes I cook for my family. It's very good to do chores. Firstly, to do some housework can make us independent, we can't depend on others all our life. So, we should learn how to do some housework. Secondly, it can keep us healthy and strong. Some hard housework can be regarded as a kind of physical exercise. Finally, to do housework can share our parents' work. They must be happy if we can help them.

So I think young students should learn how to do housework.
