10.

Have you heard about “Survival Holidays”? It is for children to go into the lonely place for exciting activities. Now about 1,100 companies are allowed to take children into the great outdoors without their parents.

The reason why people like “Survival Holidays” is that they think being close to nature is good for children. Many children in big cities spend all time watching TV and playing computer games. “Survival Holidays” gives them an important change.

Is “Survival Holidays” a wonderful idea? Maybe it is. Children need more free time to play. They need to be left on their own, without adults disturbing them. Parents care too much about their children. They like to see the children being busy with activities that are controlled by adults, which causes many problems. Children don't know what to do when they are in danger. Even something like crossing a small river seems to be a hard challenge(挑战). Children are not comfortable with danger. Even slight danger like getting their feet wet or falling down seems very terrible to them.

Many people think the survival activities are good for children. Even years later, they will still remember what they have learned. Some have learned to stay calm in dangerous times. Some have learned how to keep safe. Others have learned how to work in a team. All these skills will help them a lot in their lives.

【小題 1】 What does “Survival Holidays” mean according to the passage? \_\_\_\_\_.

13. The right name is important in the business world. All you have to do is think of the names for some of the products you buy every day and you'll agree that the name and the product are connected in everyone's mind.

In many countries, successful trade or brand(商标) names are protected by law so that other companies cannot make the same product by copying. Businesses register(注册) a company or a product name with the government. In fact, more than 1,000 product and company names are registered every hour. Many companies spend a lot of money to find the right name for their products. A good example of this is in the car industry. Some successful names for cars have powerful associations(联系). The Ford Mustang and the Jaguar are only two examples of choosing the names of animals that are fast and strong.

When a U. S company decides to sell its product in another country, it has to make sure that the product name translates(翻译) properly. When Coca-Cola introduced its soft drink to China, it looked for the right name. It wanted a name that would do two things. One was to present its image in Chinese and the second was to be close to its first brand name—Coke. It took some efforts before finding the right word — which sounds similar and translates as “happiness in the mouth”. Asian company names are not new to the United States. The brand names of Samsung and Sony have been successful. Finding the right brand name is a big business. Asian companies that sell to foreign markets pay to find a name that will connect with its customers. There are even naming companies that offer help in inventing product names. These companies can charge up to \$100,000 a word for their good names. But it's worth it. Successful companies know how important the right brand names are for their development.

【小题 1】 Why are trade names protected by law in many countries?

- A. To make companies pay for naming service.
- B. To help people choose the best products.
- C. To present good images of the products.
- D. To prevent good images from being copied.

【小题 2】 What can we learn from the passage?

- A. Many companies care about the cost of finding the right names.
- B. Creative trade names can help companies to have a larger sale.
- C. The government often does business with naming companies.

【小题 3】 What's the best title for the passage?

- A. The Importance of Right Brand Names
- B. The Development of Names
- C. The Rules of Naming
- D. The Methods of Choosing Names

18. Scientists find that hard-working people can live longer than idle(不工作的) people. Career women are healthier than housewives. Evidence shows that the jobless are in poorer health than the job-holder. A report shows that whenever the unemployment

rate(失业率) increases by 1%, the death rate increases by 2%. All this comes down to one point: work is helpful to health.

Why is work good for health? It is because work keeps people busy, away from loneliness. Researches show that people feel unhappy, worried when they have nothing to do. Instead, the happiest are those who are busy. Many high achievers who love their careers feel that they are happiest when they are working hard. Work serves as a bridge between man and reality(现实). By work, people come into contact with each other. By taking part in some activities, they find friendship and warmth. This is helpful to health. The loss of work means the loss of everything. It affects man in spirit and makes him easy to get ill.

Besides, work gives one a sense of fulfillment(充实感) and a sense of achievement.

Work makes one feel his value in society. When a writer finishes his writing or a doctor successfully operates on a patient or a teacher sees his students grow, they are happy beyond words.

From the above we can come to the conclusion that the more you work, the happier and healthier you will be. Let us work hard and study well and live a happy and healthy life.
