英语故事演讲稿1

Dear classmtes:

In china, people believe that, at the beginning, the tiger and the cat were friends, and the cat was much smarter than the tiger .The cat learned the physical skills quickly, and the tiger was always behind. Gradually, the tiger had to learn from the cat, and the cat was patient to teach the tiger. Day after day, month after month, finally, the tiger could also run, jump, roll, grasp, tear, and strike as well as the cat.

One summer afternoon, the cat was taking a nap as the tiger sitting nearby. Looking at the cat, the tiger suddenly thought, why should he keep befriending with such a small animal since he had already learnt all the skills from the cat? The evil tiger decided to kill the sleeping cat as a before dinner snack. The tiger stood up and approached the cat viciously. Just as this moment, the cat woke up. Opening up her eyes, the smart cat immediately realized what the tiger was trying to do and swiftly jumped onto a nearby tall tree and climbed to the top branch.

The tiger thought he had already learned every skill from the cat .But he never knew that the cat had hidden the tree climbing from him.

“I kept the last technique of the tree climbing from you just because I suspected you might be an ungrateful friend.” The cat loudly told the tiger who watched under the tree helplessly.

Thank you!

牧童和狼

A Shepherd-boy, who tended his flock not far from a village, used to amuse himself at times in crying out“wolf !wolf!”Twice or thrice his trick succeeded .The whole village came running out to his assistance when all the return they got was to be laughed at for their pains .

At last one day the wolf came indeed .The boy cried out in earnest. But his neighbors, supposing him to be at his old sport, paid no heed to his cries, and the wolf devoured the sheep.

So the boy learned, when it was too late, that liars are not believed even when they tell the truth.

一个放羊的孩子在离村子不远的地方放羊。他为了开心寻乐常喊：“狼来了!狼来了!”他的恶作剧有两三次达到了目的。全村的人都跑来帮忙，而他们所得到的回报却是一顿嘲笑，白费了心力。

最后，有一天狼真的来了。这个孩子认真地大喊起来。但是他的邻人们却以为他又在耍把戏，谁都不理会他的喊叫，于是狼把羊吃了。

因此这牧童得到了教训：爱说谎的人，甚至在他说真话的时候，也没人相信他，但是他知道得太晚了。

英语故事演讲稿3

ladies and gentlemen:

Good afternoon,

Today I would like to begin with a story. There was once a physical therapist who traveled all the way from America to Africa to do a census about mountain gorillas. These gorillas are a main attraction to tourists from all over the world; this put them severely under threat of poaching and being put into the zoo. She went there out of curiosity, but what she saw strengthened her determination to devote her whole life to fighting for those beautiful creatures. She witnessed a scene, a scene taking us to a place we never imaged we've ever been, where in the very depth of the African rainforest, surrounded by trees,

flowers and butterflies, the mother gorillas cuddled their babies.

Yes, that's a memorable scene in one of my favorite movies, called Gorillas in the Mist, based on a true story of Mrs. Diana Fossey, who spent most of her lifetime in Rwanda to protect the ecoenvironment there until the very end of her life.

To me, the movie not only presents an unforgettable scene but also acts as a timeless reminder that we should not develop the tourist industry at the cost of our eco-environment.

The Way to a Man's Heart...

He was her university teacher. He was smart, confident, and had a great sense of humor. And he was rather good-looking, too. The fact was, she had fallen in love with him. She sensed that he might like her. She had caught him looking at her more than once. What to do?

At the end of the semester, she waited till all the other students had left. She said she had a gift for him. He said that was very nice of her. Then he looked around for a wrapped package. Where was the gift, he asked. She said it was still at the store. She would pick him up and take him there that Saturday, if that was okay with him.

She picked him up at the Starbucks near his apartment. He was enjoying the mystery. He asked her: Was it an alarm clock so that he wouldn't be late for class? Was it teaching materials, like markers and erasers? A new briefcase? An extra ink cartridge for his computer for when he printed handouts? She said that she couldn't comment.

They got to the mall and went into Nordstrom's. "I hope it isn't a suit," he joked. "I never wear suits."

"No, it isn't. But it's something that you always wear with a suit."

"A tie? Why would I wear a tie if I never wear suits?"

"Not a tie, silly," she said, as they walked into the shoe department. She had noticed that he always wore the same pair of shoes in class. She had guessed that he wore size 11, and had picked out a nice two-tone casual model by Clark. She hoped that he would like the shoes as much as she did. The shoes fit perfectly, and he did like them. When they left the store, he offered her his hand, and they walked out to her car hand in hand. She was tingling. "Let me at least buy you dinner," he suggested as they got into her car.

Good afternoon, ladies and gentlemen.

I'm wuhaitao from the Development of Information Engineering. It's my honor to be here today to give you this speech. My topic is "protecting the environment".

Looking around us, we can see that pollution is posing a threat to our earth, which comes in many ways. Millions of the chimneys of the factories are pouring heavy smoke into air, which causes serious air pollution. A large amount of waste water from factories pollutes water, making the rivers fishless and our water unfit to drink and swim in. Further more, a lot of trees have been cut down without proper plans, which continues to the soil being washed away. It seems that we really have no clean place to live in.

The pollution is so serious that we have to find effective solutions to it. As far as I'm concerned, the government should pass laws to reduce polluted air. Some measures should be taken to purify the water before it is poured into the rivers or seas. We should plant more trees to keep the soil in place.

What's more, people should be further educated to realize the importance of the environment protection. Thus we will have clean and tidy environment. Only in this way can we solve these problems.

Today is an excellent day for small improvements. Whatever is working for you, find a way to improve it just a little. There's no need to make a huge change, just a small one, something you can do right now.

If you called just one additional customer each day, over the course of the next month you would talk to about 20 new people. If you learned just one more new word each day, in the next year you would increase your vocabulary by more than 300 words.

Small improvements can add up over time into big accomplishments. Look around you. Consider the work you do each day. Think about how you could do it just a little bit better.

In a marathon race, each step the winner takes is just a little bit longer and a little bit faster than each stride taken by the 100th place finisher. Yet over the course of the race, that small difference adds up in a big way.

Do just a little bit more today, and tomorrow too, and each day after that. Anyone can make just a small improvement, and that can make a big, big difference.

今天就是你可以做改进的极好的一天。无论你在做什么，找一个方法去做一点点的改进。不用做太大的改变，只要一点点——你现在可以做到的一点点。

如果你每天多给一个顾客打电话的话,一个月下来你会发现你又多认识了差不多二十个人。如果每天多学会一个新词,过一年,你的词汇量将会增加300多个。

小小的改进能够逐步积累成大的成就。观察你的周围。思考你每天所做的工作。英语短文想一下你怎么能做得更好一点。

在马拉松比赛中,冠军的每一步都只比第一百名的选手的步伐大一点点、快一点点。英语短文但是在比赛过程中,那些小小的不同积累成了巨大的区别。

今天、明天、今后的每一天尽力做更多一点点。任何人都能做一点小小的改进,但那小小的改进将会起到非常大、非常大的作用。

五: Facing the Reality in Silence

The truest and most expressive thought was hardly be expressed.

We all face it alone in silence to the most important thing in life. We can talk occasionally about love, loneliness, happiness, miseries, death and so on, but the true meaning is hard to deliver by words. I cannot tell others how gentle my love is; how desperate my loneliness is; my enjoyable happiness is; how expressive my miseries is; how ridiculous my death is. I have no choice but to hide them deeply in my heart. All what I said and wrote but the product of thinking, while thinking, to some extent, is a kind of escape which from the particular to general, fate to

life and the abyss of silence to the bank of language. If they have not become

pure/solely and abstract idea, it is merely because they have newly struggled out from the silence and with something hard to tell in their bodies.

I am not to deny the possibility of communication between human beings, but the condition. It is silence, instead of words, had an excellent explanation: the nature of silence tells the nature of one's soul. There is no any words may have a possibility to make a communication between their soul if the two cannot share the same silence. To those who have not solved the same questions in silence, even profound philosophy is only some polite formulas. In fact, those superficial readers have no ability to identify the profound philosophy and abstract thoughts, proverb and polite formulas, philosophy, insipid/prosaic and commonplace, the knowledge of Buddha dharma and deceitful trick. One's ability in words comprehension is based on his understanding to silence and eternally based on his silence; that is his capacity of soul. Therefore, I insist that the lesson of one who is determined to seek the life philosophy is silence---to face his important problem of sale in silence. Until he has enough accumulation and tires to bear, all windows opened to him.

This is the way that he not only understands the limited words, but also the unlimited information behind the silence of words.

翻译：在沉默中面对

最真实，最切己的人生感悟是找不到言辞的。

对于人生最重大的问题，我们没跟人都是能在沉默中独自面对。我们可以一般的谈论爱情、孤独、幸福、苦难、死亡等等，但是，那属于每个人自己的真正意义始终在话语之外。我无法告诉别人我的爱情有多么温柔，我的孤独有多么绝望，我的幸福有多么美丽，我的幸福有多么美丽，我的苦难有多么沉重，我的死亡有多么荒诞。我只能把这一切藏在心中，我所说出的写出的东西只是先思考的产物，而一切思考在某种意义上都是一种逃避，从最个别的逃向一般的，从命运逃向生活，从沉默的深渊逃向语言的彼岸。如果说他们尚未沦为纯粹的空洞的概念，那也只是因为他们是从沉默中挣扎出来的，身上还散发着深渊里不可名状的事物的七夕。

我不否认人与人之间沟通的可能，但我确信其前提是沉默，而不是言辞。美特林克说得好：沉默的性质解释了一个人灵魂的性质。在不能共享沉默的两个人之间，任何言辞都无法使他们的灵魂发生沟通。对于未曾在沉默中面对过相同问题的人来说，在深刻的哲理也只是一些套话，事实上那些浅薄的。读者奇缺分不清深刻的感悟和空洞的感叹，格言和套话，哲理和老生常谈，平淡和平庸，佛性和故弄玄虚的禅机。一个人言辞理解的深度取决于他对沉默理解的深度，归根结底取决于她的沉默，亦即他的灵魂的深度。所以，在我看来，凡有志探究人生真理的人首要功夫便是沉默，

在沉默中面对他灵魂中真正属于自己的重大问题。到他有了足够
