C 篇

Henry Ford was the first person to build cars which were cheap

, strong and fast . He was able to sell millions of models because

he could produce them in large numbers at a time ; that is ,

he made a great many cars of exactly the same kind . Ford's father

hoped that his son would become a farmer ,

but the young man did not like the idea and he went to Detroit

(底特律) where he worked as a mechanic (机械

师) . By the age of 29 , in 1892 ,

he had built his first car . However , the car made in this way ,

the famous "Model T" did not appear until 1908-

five years after Ford had started his great motor car factory . This

car showed to be well-

. Since Ford's

s time ,

this way of producing cars in large numbers has become common in industry and has reduced the price of many goods which would otherwise be very expensive .
