We 3. **found** (find) that only 15% of our students exercise every day. Besides, we were surprised that 90% of 4. **them** (they) use the Internet every day. The other 10% use it 5. **at least** (至少；不少于；起码) three or four times a week. Parents have also 6. **pointed** (point) out the problem in the past few years.

As for watching television, only 2% of the students watch TV once a week. And there is 7. a program that is loved by most of the students — game show.

Although it is good to relax by using the Internet or watching game shows, the 8. best (good) way is through exercise. It is 9. healthy (health) for the mind and the body. So we should spend 10. less (little) time on the Internet and watching TV. Start from now on!
