Rome can be pricey for travelers, which is why many choose to stay in a hostel (旅社). The hostels in Rome offer a bed in a dorm room for around \$25 a night, and for that, you'll often get to stay in a central location (位置) with security and comfort.

Yellow Hostel

If I had to make just one recommendation for where to stay in Rome, it would be Yellow Hostel. It's one of the best-rated hostels in the city, and for good reason. It's affordable, and it's got a fun atmosphere without being too noisy. As an added bonus, it's close to the main train station.

Hostel Alessandro Palace

If you love social hostels, this is the best hostel for you in Rome. Hostel Alessandro Palace is fun. Staff members hold plenty of bar events for guests like free shots, bar crawls and karaoke. There's also an area on the rooftop for hanging out with other travelers during the summer.

Youth Station Hostel

If you're looking for cleanliness and a modern hostel, look no further than Youth Station. It offers beautiful furnishings and beds. There are plenty of other benefits, too; it doesn't charge city tax; it has both air conditioning and a heater for the rooms; it also has free Wi-Fi in every room.

Hotel and Hostel Des Artistes

Hotel and Hostel Des Artistes is located just a 10-minute walk from the central city station and it's close to all of the city's main attractions. The staff is friendly and helpful, providing you with a map of the city when you arrive, and offering advice if you require some. However, you need to pay 2 euros a day for Wi-Fi.

Most people who ran the marathon last month spent days before resting up and days after recovering. But not Jacky Hunt-Broersma. In total, she ran 104 marathons in 104 days. If it's confirmed by Guinness World Records, that would be a new world record. And she did it all with one leg and a prosthesis (假肢).

"Someone able-bodied had done it previously. I wanted to see if I could do it on a prosthetic leg and see what would happen," she said. "I thought it would be a great way to inspire others to push their limits because I truly believe that we're stronger than what we think. And I've been so pleasantly surprised that my body is held up, everything is held up and I've made it to 104."

She actually did not pick up the sport until after she lost the lower part of her left leg in 2001 to a type of cancer called Ewing sarcoma. Runners using a prosthetic leg can't use a regular one. They need a running blade (刀锋式跑步义肢). Hunt-Broersma has two, but she was only able to run with one because of the swelling she experienced
