CHAPTER 02

Number of adults in the United States with prediabetes in 2021, by gender (in millions)

Number of adults in the United States with prediabetes 2021, by gender

9 Description: In 2021, it was estimated that a total of 97.6 million adults in the United States had prediabetes, with men accounting for around 53.2 million of these cases. Those with prediabetes have blood sugar levels higher than normal, but not high enough to yet be diagnosed with diabetes. This statistic shows the number of adults in the United States with prediabetes in 2021, by gender. Note(s): United States; 2021; 18 years and older Source(s): CDC; US Census Bureau

Number of adults in the United States with prediabetes in 2021, by age (in millions)

Number of adults in the United States with prediabetes 2021, by age

Number of adults in the United States with prediabetes in 2021, by race/ethnicity (in millions)

Number of adults in the United States with prediabetes in 2021, by race/ethnicity

11 Description: In 2021, it was estimated that a total of 97.6 million adults in the United States had prediabetes, with non-Hispanic white adults accounting for around 61.8 million of these cases. Those with prediabetes have blood sugar levels higher than normal, but not high enough to yet be diagnosed with diabetes. This statistic shows the number of adults in the United States with prediabetes in 2021, by race and ethnicity. Note(s): United States and older Source(s): CDC; US Census Bureau

Percentage of adults in the United States with prediabetes from 2017 to 2020, by gender

Share of adults in the United States with prediabetes 2017-2020, by gender

12 Description: Based on data from January 2017 to March 2020, it was estimated that around 41 percent of men and 32 percent of women in the United States had prediabetes. Those with prediabetes have blood sugar levels higher than normal, but not high enough to yet be diagnosed with diabetes. This statistic shows the percentage of adults in the United States with prediabetes, by gender. Note(s): United States; January 2017 to March 2020; 18 years and older Source(s): CDC; US Census Bureau

Percentage of adults in the United States with prediabetes from 2017 to 2020, by race/ethnicity

Share of adults in the United States with prediabetes 2017-2020, by race

Percentage of adults in the United States who had ever been told they had prediabetes as of 2023, by state*

Leading U.S. states based on percentage of adults with prediabetes 2023

Percentage of adults with prediabetes

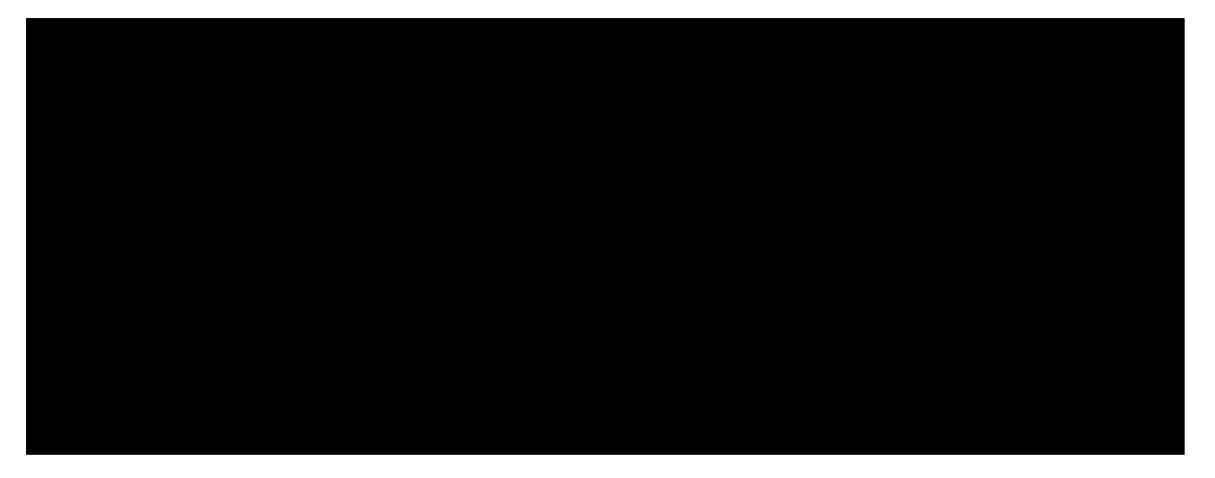

CHAPTER 03

Prevalence and incidence of diabetes

Prevalence of diagnosed diabetes among adults aged 18 and over in the U.S. from 2000 to 2022

Prevalence of diagnosed diabetes among adults in the U.S. 2000-2022

Percentage of adults in the United States with diagnosed or undiagnosed diabetes from 2017 to 2020, by age

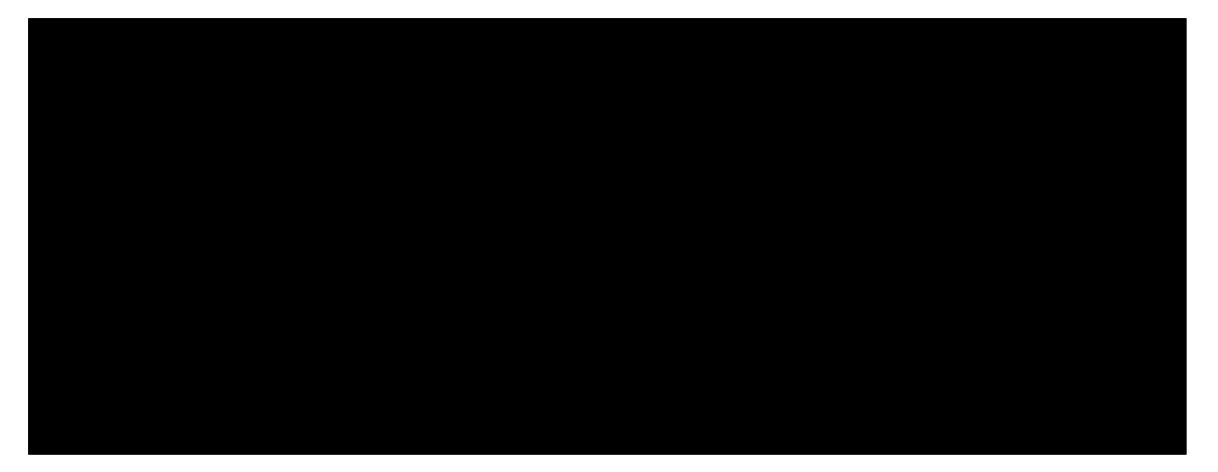

Share of U.S. adults with diagnosed or undiagnosed diabetes 2017-2020, by age

17 Description: In the period from January 2017 to March 2020, it was estimated that around 29 percent of adults in the United States aged 65 years and older had either diagnosed or undiagnosed diabetes. This statistic shows the percentage of adults in the United States with diagnosed or undiagnosed diabetes, by age. Read more. Note(s): United States; January 2017 to March 2020; 18 years and older Source(s): CDC

Percentage of adults in the United States with diagnosed or undiagnosed diabetes from 2017 to 2020, by race/ethnicity

Share of U.S. adults with diagnosed or undiagnosed diabetes 2017-2020, by race

18 Description: In the period from January 2017 to March 2020, it was estimated that 16.8 percent of non-Hispanic Black adults in the United States had either diagnosed or undiagnosed diabetes. This statistic shows the percentage of adults in the United States with diagnosed or undiagnosed diabetes, by race/ethnicity. Read more. Note(s): United States; January 2017 to March 2020; 18 years and older Source(s): CDC

Number of U.S. Americans with diagnosed diabetes from 1980 to 2022* (in millions)

Number of U.S. Americans with diabetes 1980-2022
