漫画题

2010 年考研大作文依旧是以漫画出题形式， 观察一幅“火锅”图画， 锅里的食物写着文字：佛，功夫，解构，礼，，道，仁，京剧，后现代，老舍，莎士比亚，爱因斯坦等代表古今中外文化。并将这些文化“融于一锅”。图画下面注明：文化“火锅”，既美味又营养。图画寓意其实不难理解，主题与友善世界文化的兼容并蓄息息相关。可是涉及到一些考生不太熟悉词汇的表达。 ？

篇章结构 ？ 1、描述图画 ?? 2、阐述寓意 ?? ?3、我的看法

As is shown vividly in the picture , A diversity of cultural elements are being cooked deliciously in one hotpot. To be specific, there are a great deal of oriental cultural characteristics such as Buddhism, Kongfu and the Confucianists etc. In the same pot, there are some of the greatest western people like Shakespeare and Einstein 。

Simple as the cartoon , it symbolically shows different cultures around the world are being interconnected and influence on each other. Along with the rapid advancement of both the world economy and communication, the custom of a culture is more likely to be accepted and shared by other ones. Indeed, with more respect and care, different nations could live together with their own customs and my part, the combination of various cultures in the world should be encouraged to promote world harmony. On the one hand, each culture can be independent and protected from any foreign cultural invasion. On the other hand, one culture can be enriched and promoted through accepting the more advanced and civilized elements from others .

As is vividly depicted in the drawing, in the middle of the cartoon stands a hot pot, containing many Chinese cultural symbols, such as Beijing operas, Daoism, and some foreign cultural symbols, etc. How impressive the drawing is in describing the common phenomenon that Chinese culture is becoming increasingly integrated into the world. The drawer's intention seems to be highly self-evident and the meaning causes us to be thought-provoking.

It holds to be apparent that the cartoon is indicative of a pervasive phenomenon with regard to culture. When it comes to(一谈到) culture , its great impacts and benefits can't be too estimated. As China opens to the outside world, our traditional culture is embracing the foreign culture, thus making our Chinese culture more diversified, colorful and internationalized just like a melting pot. What the picture conveys goes far beyond this. The fact that people from different countries are attracted to each other, indicating that to some extent different cultures can be accepted , respected , appreciated and shared internationally. In other words , Chinese unique culture can become international through worldwide economic and cultural exchanges. Since the trend of globalization become irresistible, cultural integration can effectively improve mutual understanding and friendship among different countries.

In my personal sense, Chinese national culture as priceless spiritual treasure should be preserved and cherished. Meanwhile , there are good reasons to embrace foreign cultures on the ground that those ideas from the other cultures can provide a different perspective for us to observe the world in the long run. However , confronted with a different culture , we should be sensible enough to absorb its essence and to resist its dark side. Only in this way can we promote cultural integration and development positively, thus making our motherland dimensional , colorful and vigorous. (303 words)

Mobile-phone Subscriptions

2010 年考研英语二作文题配图

The Rapid Increaseing

The mobilephone subscriptions above shows a striking contrast between those developing countries and developed countries. in 2001 to 2002, the condition people in two groups use mobilephone is nearly the same, maybe a little with the passage of time, more and more people in developing countries use mobile phone, while those in developed countries lag 2008, there are 4 billion mobilephone users in developing countries, 3 times more than that of 1 billion of developed countries 。

As far as I am concerned, this seemed to be interesting phenomenon, I personally owe it to 2 reasons 。

On one hand,the overall economic status in developed countries is much superior to that in developing countries in the past,which led to the large gap in telecommunication industry between two groups of countries. However, with the rapid increase in economy happening in the developing countries especially in China the telecommunication industry in those countries got a great bound to meet the demand of globalization. As a result the user of mobile phone which can narrow the distance between people and link the whole world together rised at a incredible speed 。

On the other hand,the extremely advanced civilization of developed countries means less potential in many aspects including in the area of private telecommuicational tools and their demande for further of such tools trend enlargement to saturation. Maybe that is the reason why the number of the user of mobile phone in the developed countries keep nearly the same,even though a little increase 。

To sum up, mobile phone is convenient for international communication and our lives and gradually become the essential stuffs. At the same time when we keep using it, we should also broaden our eyes to focus on its two contrary sides ,positive and negative,maybe the convenience for communication and the damage to environment and health. Let's take care of both sides of it and make the use of mobile phone the welfare of the human beings 。

As can be seen from the graph, a hotpot is boiling various kinds of words from both Chinese and Western culture. The words can be categorized as shows literature, moral values and performing arts. In my view, the picture us the modern Chinese society in which traditional and Western culture conflict with each other. Meanwhile kinds of different values merge into whole part in some degree. In the highly-integrated world today, we can connect each other very easily. So does the culture. Every one has to face up with kinds of alien culture besides our traditional culture. However, it does not mean the foreign culture should be accepted completely .It is up to the option of the person who has the hotpot. We can decide whether and how to accept it. It means that we should take full advantage of the excellent part of culture.

What an astonishing picture it is above! Two one-legged men are running together on each other's help. Departed, they would have been unable to

move even an inch forward, combined, they are now capable of running over any intact person.

As the core value of development strategy at the time being, sense of cooperation and its weight couldn't be more clearly proved and revealed in the picture above-shown. In real world, no one is perfect, rather we are all flawed and fallible. With limited strength and unavoidable shortage, it is hard for an individual to reach great achievement all by his own. United, however, other person's advantage will perfectly and swiftly cover our shortcomings, and a win-win policy will be expectable around the corner.

From my own perspective, such an understanding will do good to our society if it is carried out more profoundly. Only through a mutual aiding system assisted by government can Social harmony actually come true. Therefore a well-established system should be in use so that different communities, groups and families can live on one another, sharing interests and achievements. As it has been announced by UN in 2000, united, we are the world!
