B Simon is writing about the meeting on his blog. Help him complete his article with the information in Part A.

We are going to have a “helping hands” meeting at the community center on the afternoon of 5 March. Some neighbours are there ready to help.

Sometimes people do not feel well. The doctors and nurses at the Health Centre will make you feel better. There are also some engineers at the Fix-It Club. People will get help if there is something wrong with their washing machine or fridge.

The members at the Art and Design

Group know a lot about

styles and colours . When people do

not know what to wear to a party or

how to design the home , the artists

will give them some ideas .
