Objectives

- **To understand the comic strip**
- **To learn about the different parts of a computer**
- **To talk about the different uses of computers**
- **To master the words and expressions:**
 - programme, keyboard, main unit, mouse, screen, receive, look like, search for information, send and receive emails,**
 - What do you usually use your computer for?**
 - I usually use it to ...**
 - How often do you use your computer for this?**

Listen and answer

**Listen to the conversation between
Eddie and Hobo and answer the
following questions.**

1. What do Eddie and Hobo think the computer look like?

They think it looks like a TV.

2. Do they know anything about

computers?
No, they don't.

3. What do they think the mouse is?
They think it is a remote control.

4. What do they want to use the mouse to

do?
They want to use it to change the channel.

Fill in the blanks.

Eddie and Hobo know nothing about computers. Hobo thinks the computer looks like a television. Eddie agrees with Hobo and he thinks the mouse is the remote control. They want to use the mouse to change the channel because the programme began an hour ago.

Learning about computers

Annie, Simon's cousin, wants to learn about the different parts of a computer. Look at the picture below and help her write the correct answers in the boxes.

Different parts of a computer

Computers are useful in our daily lives and they've changed the world. Can you tell me the different uses of computers?

How do youdo!

The image shows a screenshot of a Windows Notepad window titled "文档 - 写字板". The window contains an HTML document with the following code:

```
<html>
<head>
<meta http-equiv="Content-Language" content="zh-cn">
<meta http-equiv="Content-Type" content="text/html; charset=gb2312">
<meta name="keywords" content="西张学校网站http://www.xzxx.cn">
<title>西张学校</title>
<LINK href=news.css rel=stylesheet>
<script language="JavaScript">
<!--
if (self != top) top.location.href = window.location.href
//-->
</script>
<script language=JavaScript>
<!--
//
var version = "other"
browserName = navigator.appName;
browserVer = parseInt(navigator.appVersion);
if (browserName == "Netscape" & & browserVer >= 3) v
```

The status bar at the bottom of the window displays the text "要“帮助”，请按 F1" and a numeric keypad icon.
