三、阅读理解(共两节, 40分)

第一节(共16小题;每小题2分, 共32分)

阅读下列短文, 从每题所给的A、B、C、D四个选项中, 选出最佳选项, 并在答题卡上将该项涂黑。

A

A houseplant is pretty to look at and brings fresh air to your home. Besides, looking after

a plant will give you something more to do and care about. Let's look at the four best houseplants you can grow.

Australian Pine

A perfect "living decoration" to add in your house, it is good to look at and has a comforting feel. It can also serve as the perfect Christmas tree. It grows around 10 feet tall indoors. Remember that it requires plenty of light and fresh air. Otherwise, it becomes weak and an easy target for mites (螨虫).

Dracaena

The green and yellow pattern on its leaves looks great. It can grow to be around 10 feet tall. Just make sure you keep the soil surface dry between your watering periods because it gets influenced by too much water. Also, having this plant around a dog can be dangerous. It can be poisonous to dogs if they eat it.

Grape Ivy

If you want something off the ceiling (天花板), this houseplant is the one for you. It's a climbing plant, and it will make for a beautiful hanging basket decoration. The plant is full of life wherever it is hung. It needs to be kept wet in all its parts for good growth.

Peperomia

It is little in size, with long leaves. It adds energy to your living room and creates a comforting environment. As it's not a very tall plant, you needn't worry about how much space it will take up. The plant likes a dry surface of the soil.

So what are you for? Choose the one that attracts you most, and give your home a wonderful addition.

16. Which of the following can serve as a Christmas tree?

- A. Australian pine. B. Dracaena. C. Grape ivy. D. Peperomia.

17. When keeping Dracaena as a houseplant, you should _____.

- A. be careful with mites B. hang it from the ceiling
