How amazing!

Let me offer you some useful advice. You probably think you will never be a top student. Anyone can become a better student if he or she wants. Here is how.

Plan your time carefully. Make a list of the things that you have to do. After making the list, you should make a schedule of your time. First, arrange your time for eating, sleeping, dressing, et. Then decide a good regular time for studying. Don't forget to spare some time for your hobbies.

Find a good place to study. Look around the house for a good study area. It may be a desk, a corner of your room, free of everything but study things.

Make good use of your time in class. Listen to everything the teacher says. Taking notes will help you remember what the teacher says.

Study regularly. When you get home from school, review your notes. Reviewing the important points will help you understand the next class.

Never give up if you don't pass in a test. The purpose of a test is to show what you've learnt from a book or a subject. It helps you remember new knowledge. Don't be too worried. The world won't end if you ~~don't pass a test.~~

Your schooldays should be the best and happiest days of your life. How can you get the most from them, and be sure you don't waste this great chance to learn?

**Be active at school.** Don't say things are difficult. Take interest in school life and your school subjects. Join lots of activities. Put up your hands quickly in class. Go around the school with a big smile. Teachers cannot make everything enjoyable.

**Keep fit.** If you don't eat a good breakfast, you will be thinking about food in class. If you go to bed late and don't have enough sleep, you will feel tired in class. Play enough sports every day to keep your body strong.

**Face the problem.** Don't say you will do things tomorrow. If you get behind the class, it is very difficult to get back in front. You cannot finish the race if you rest all the time. Everyone fails some exams, loses some matches

and has a bad day. Don't forget to ask for help. You are young, and no one thinks you must do everything quite well!

**Spend the weekends.** Don't waste time lying in bed on Saturday or Sunday morning. Go and play sports, get together with friends to relax in the park, learn to play the piano and so on. If you don't want to go out, you can read a book, practice English or help Mum with housework.

Follow our advice, and have a happy school life!

A school bus takes children to and from school.

In the USA,about 450,000 school buses take more than 25 million children to and from school.The yellow

school bus is a US icon. Dr. Frank says it is easy for people to see yellow buses and the black letters on them in early mornings or late afternoons. That would make children safe.

There are not many school buses in Britain, and they are not yellow. They have trackers on them. The trackers let parents know where the school bus is and if their kids are on the bus.

Kindergarten is a difficult time for some kids. It's the first time for them to go away from their parents. Japanese kindergartens and schools have colorful buses to make kids love their school. The buses can easily make children want to go to school. Even some parents want to take them, too!

In China, more and more schools are beginning to use school buses. It saves a lot of time for students to take a school bus. 3,000 yellow school buses will be on the road in Chongqing.

The school buses are important in students' everyday lives. They can help the environment and keep the children safe.

As you know, homework is a big part of going to school. Luckily, here are some tips for you to make homework easy.

### Make a homework plan

Most middle school students have two or three hours of homework a night. If it is a heavy homework day, you may need to spend even more time. It is a good idea to think of a kind of homework schedule, especially if you are going to do sports or other activities after school.

### Watch where you work

A bedroom, study or any room where you can get away from noise is good for you to do your homework. But don't study on your comfortable bed, or you might fall asleep there.

### Take a break

Most people's attention don't last very long, so take some breaks while doing your homework. Sitting for too long without relaxing will make you less productive than if you stop to take a break regularly. Taking a 15-minute break every hour is a good way for most people.

### Get help when you need it

Sometimes you are listening carefully in class, but some subjects seem too hard. The first person to ask for help is your teacher. He or she may work with you before or after school and explain things more clearly. Your classmates may also be able to give you a hand. However, this might not give you the results you want.

A different way of learning is widely used in our English study.

Before class,we make study plans first.Then we look up the new words,listen to the recording and read the text.When we meet problem,we can't solve by ourselves.We always write them down in our notebooks.

In class,we sit in groups to discuss the problems freely.The teacher always offers help when we need.After
