I urge all teachers and students to partake in this event and show our collective support for those in need. Let's join hands to make a difference through mutual assistance and care.
the Students' Union

Dear teachers and schoolmates,

With the International Volunteer Day in full swing, I am thrilled to appeal to you to participate in the volunteer campaign on the theme of “ mutual assistance and care” launched by our school.

With the purpose of promoting the spirit of collaboration and compassion within our school community, the campaign, scheduled for December 5th, will feature a wide range of activities. It'll commence with beautifying campus activities. Not only will we plant trees together on campus, but we will paint the initially dull walls white. What follows next is to visit the nursing home, where we'll assist the elderly in handling daily chores and teaching them to obtain basic computer skills. Subsequent to it, a series of charity contributions will be scheduled by our school, such as contributing second-hand reference books to the disaster-stricken areas. It is also worth mentioning that we can exert enough attention to the left-behind children in our community. Personally, through all the above volunteer activities, we are bound to fully appreciate the importance of mutual assistance and rendered rewarding experiences.

It is every bit of what you do that truly counts/matters. Let us work together to make a positive difference to those around us and a better world for all.

My Volunteering Experience

Volunteering, an effective way to give back to the society by engaging in social activities, plays a pivotal role in providing individuals with a sense of fulfillment, belonging and social identity.

Of all the volunteer activities I have ever partaken in, protecting and preserving the Great Wall is the most meaningful and memorable. It kicked off with all of us performing some clean-up, collecting litter that damage its image and clearing some weeds that may speed up its collapse. What followed was that we launched a fundraising campaign to raise money from visitors and donate it to the ongoing maintenance. The highlight was that we recorded and collected the comprehensive digital images of the Great Wall with the aid of 3D scanning and VR technology, thus enabling the digital travel in the Wall.

Through this experience, I appreciate that the more we acknowledge the outstanding universal value of our heritage sites, the more likely we are to treat them with respect. Besides, they do offer us opportunities to wonder, to be inspired and to think more deeply about our time on the Earth. In a word, we all share a joint responsibility to protect and preserve them, not just for ourselves, but for future generations.

My Volunteering Experience

As an indispensable way to give back to/make contributions to the community and make a positive impact on the lives of others, volunteering provides individuals with a sense of fulfillment and helps construct a more supportive society.

My experience of working in a local nursing home can't illustrate the point better/ a case in point. During the memorable experience, I spent quality time engaging in conversations, assisting the elderly with their daily tasks, and providing companionship to them. Additionally, we also arranged some interactive activities such as staging singing and dancing performances and make delicate cards with them, easing their loneliness and bringing a sense of warmth. It was incredibly rewarding to see the smiles on their faces and to know that I was making a difference in their lives.

It was such a meaningful experience that not only does it enrich my life but also serves as a reminder of the power of spreading kindness and supporting those in need.

My Volunteering Experience

Volunteering serves as a bridge between individuals and their communities, fostering empathy, understanding, and a sense of responsibility. Through volunteering, one not only contributes to the betterment of society but also undergoes personal growth and development.

I once attended a memorable summer voluntary work where we ventured into rural areas to engage in educational activities. Teaching them basic literacy skills and organizing recreational activities not only brought joy to their faces but also instilled in me a sense of fulfillment and purpose. By taking in voluntary works, I have learnt the importance of compassion, patience, and perseverance. Moreover, witnessing the challenges faced by the less fortunate ignited a desire within me to contribute more actively to social causes and advocate for positive change.

My family tradition

It's an honor to talk about my family tradition.

My family tradition

It's an honor to talk about my family tradition. I can clearly remember the bright Saturday afternoon 10 years ago, when I accidentally knocked over a neighbor's flowerpot. Out of fear, I took flight immediately, rushed home and poured the whole thing to my parents. They praised me for my honesty and encouraged me to take responsibility for my fault bravely. Much touched, I went to apologize to my neighbor sincerely.

Surprisingly, instead of blaming me, he gave me a thumbs-up for my honesty, which brought me a great sense of relief and joy. It was at that moment that I realized the power of the family tradition. Actually, honesty and responsibility have always been valued and passed down through generations.

Embracing my family tradition has shaped me into a better version of myself, and I am confident that it will continue to guide me in the future.

Thanks for your listening.

My family tradition

It's an honor to talk about my family tradition. Of all my family traditions we hold dear, the one that holds a special place in my heart is our weekly Sunday dinner gathering. No matter how hectic our schedules may be, we always make it a priority/point to come together and share a meal, during which we pour out to one another our individual experiences and we also discuss about our dreams and aspiration for the future.

This tradition has had a profound impact on me. It provides us with an opportunity to bond and treasure each other's company. It also serves as a harbor/refugee from the hustle and bustle of our daily life for the time being. Through it, not only has I appreciated the significance of cherishing family time and the value of maintaining strong connections with my loved ones, but it has also

instilled in me a sense of duty to carry on this tradition in the future and create a warm and welcoming environment for my own family.

In conclusion, I am proud to uphold my family traditions and the love it embodies. Thank you.

Dear Sir / Madam,

I am Li Hua, an exchange student currently studying in London. Fascinated by your volunteer recruitment advertisement online, I'm writing to extend my fervent anticipation to participate and enquire about some relevant information.

Yearning to blend into local society and contribute my time and effort to help those in need, I find this work exactly caters to my expectations. Therefore, I am wondering if you could endow me with details, such as the time commitment required, and any specific qualifications needed, thus guaranteeing my appropriate preparations for the work in advance. Also, I would be grateful if you could provide information on the application process and the arrangements of upcoming events.

Hopefully, I could be given the golden opportunity to get involved in your program and enrich my experience. Your attention and prompt reply is deeply appreciated.

Dear Sir/Madam

I'm Li Hua, a Chinese student studying in London during my summer vacation. With strong interest in the volunteer recruitment ads you posted online, I'm writing in hope of getting more information.

As an exchange student, I am convinced that this voluntary program will provide me with a golden opportunity to gain a deeper insight into local culture and build bonds with the community, while trying my best to display the philosophy of mutual love and care. To better meet the need, I wonder what the main task of the voluntary work is. Would it be things like helping out at the food bank or keeping the elderly company in the local nursing home? Also, are there any specific demands needed to be met to participate like former experience? Or should we make special preparations for it? Lastly, it would be so nice of you to inform me of the application process.

I'm badly in need of more specific information. Looking forward to your reply at your earliest convenience and a fruitful voluntary experience!

Dear Mary,

I am writing to share my thoughts on the "3-Minute Speech Before Class" activity that you have been conducting since last semester.

The activity, which boosts our speaking skills and confidence, has been favored/championed by most of us. However, with the speech featuring voluntary participation, the students crazy about English are always seizing the opportunity to present themselves, leaving shy students no chance. So I suggest that students take turns giving presentations to guarantee everyone an equal chance to express themselves. Overall, the "3-Minute Speech Before Class" activity has fueled us students' passion for English, and with some adjustments, it will be even more effective in enhancing our spoken English.

Thank you for your dedication to our learning experience, and I'd appreciate it if my advice could be considered.

Yours,

Li Hua

Dear James,

Grateful to you for guiding us to win the first prize in the school English Drama Festival and entrusting me to survey students' preferred activities to celebrate it, I'd like to share with you the results and my opinions.

As is shown in the bar chart, outing at weekends is the most likable, accounting for 88%, followed by watching English movies which makes up 59%, while sharing food and drinks represents the least, only 32%.

Based on the findings, the majority of our students, which accounts for 88% of the total, expressed their desire for outing at weekends, while 59% of the participants show a preference for

watching English movies, followed by 32% who hope to share food and drinks.

Given these preferences, I recommend organizing a weekend outing. Not only did this option receive the highest interest, but it would also allow us to enjoy the outdoors and engage in various activities together, making us more united. It's a perfect way to relax, have fun, and bond further outside of school.

In order to cater to the need of the majority, I suggest that we could select a nearby mountain as our outing site where we definitely could exchange snacks and beverages. Better still, enjoying English movies could be a wonderful pastime along the bus ride. I'm sure that this journey would serve as a great opportunity to savor the joy of our victory as well as unwind our hearts.

Once again, thank you for your support and guidance, and I would appreciate it if my plan could be taken into account.

Yours sincerely, Li Hua

Such an outing is perfect for us to take a break from study routines, strengthen friendship and make our success more memorable.

Thanks again for your thoughtful gesture. Looking forward to our exciting celebration!

Dear fellow students,

With a growing number of cultural relics being damaged, I'd like to appeal to all of us to protect and preserve the priceless heritage for generations to come.

Take the Great Wall as an example. Due to the large volume of tourists, some parts of it have been marked or lettered at random to prove their presence. What's worse, some bricks of it have been stolen. Unfortunately, all these happen to other cultural relics. Therefore, it is imperative that we take immediate action./To address these issues, what tops the list is to raise people's awareness

through educational campaigns. For example, when visiting cultural relics, do not touch the exhibits unless allowed. Of equal importance is that we can create comprehensive digital images of our relics to conserve them for generations by means of 3 D scanning so that digital tourism can be a welcome alternative.

Only with our joint efforts can all the cultural relics be well preserved. So Let us join hands to safeguard our cultural treasures and ensure that they are passed down to future generations. Together, we can make a difference in preserving our cultural heritage!

Hello, everyone! I'm here to represent our group's viewpoint on the use of online voting to select the top ten campus singers. Our group believes that online voting is a fantastic idea.

Firstly, it's important to acknowledge that online voting is convenient and accessible to everyone. With just a few clicks on a computer or a smartphone, we can easily cast votes to support our favourite singers. Besides, online voting allows for a wider reach and engagement, breaking down the boundaries of physical locations and enabling more people to participate in the voting process.

Overall, we think online voting is a convenient and inclusive means for choosing the top ten campus singers. Thank you for listening! (97 词)

下水范文:

Hello, everyone! On behalf of our group, I feel honored to voice our opinions. We argue that online voting is efficient and effective in selecting the Top 10 Singers on Campus.

For a start, online voting is convenient. People can get access to voting through digital devices regardless of time and place, enabling more people to partake in this activity. Besides, it is such an efficient approach that the visualized real-time results can be figured out automatically, which saves not only time but also resources. Moreover, online voting provides a platform to showcase the singers' talents through images, videos, or other multimedia. Therefore, voters can get a well-rounded understanding of each contestant and make a fair and just decision.

All in all, our group holds the belief that online voting is highly suitable and efficient. Thank you for listening!

参考范文二

Hello, everyone! Though online voting is widely used, its drawbacks are undeniable. Let me share our concerns about using it to select the top ten campus singers.

Firstly, not all of us have access to the Internet or electronic devices, so the voting result can not reflect the true preferences of the entire student community. Besides, cheating is a significant concern. Contestants may create multiple accounts to vote for themselves or ask for votes from acquaintances. In this way, the voting result fails to show the contestants' vocal abilities and stage performance.

Overall, while online voting has its benefits, we should also guarantee the fairness and reliability of the contest. Thank you for listening! (108 词)

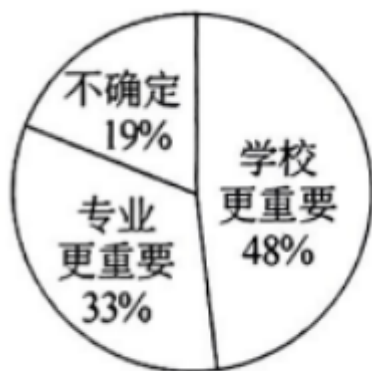

Hello, everyone! I'm honored to speak on behalf of our group. Trendy as the use of online voting is now, /Convenient as online voting is to use, its drawbacks are undeniable.

Undoubtedly, online voting systems are vulnerable to cyber attacks, and easy to be manipulated, thus leading to false voting and injustice. Moreover, lacking professional guidance and expertise but just depending on personal preferences, it does not necessarily mirror the singers' authentic performances. On top of the above, online voting assumes that all participants have access to the Internet. However, this may not be the case for everyone.

In conclusion, we are not in favor of the way of voting online to select the top ten campus singers. To make the result more convincing, it's highly recommended that some professionals, such as music teachers, should select singers, which we believe will make the singing competition fairer. Thank you for listening!

Which Matters More---Major or University?

Recently, a survey was conducted about which matters more, one's major or university. As is revealed/indicated in the pie chart, the majority attach much more importance to university, accounting for 48%, followed by those assuming that major matters more, 33%, while those who have no idea which matters more represent up to 19%.

Generally speaking, both major and university play pivotal roles in senior high students' academic performances and career paths. With access to excellent academic training, meaningful lectures and colorful experiences of different clubs in university, an excellent university brings many unseen benefits. In the meantime, different majors will lead to different career paths which ultimately contribute to different incomes.

Personally, I deem that our life is not necessarily determined by them. It is our own will and commitment to personal growth that are closely related to our overall performance in the university.

Dear Peter,

At the thought of launching the "Cross-Cultural Food Fair", I am anxious to discuss it with you. /The "Cross-Cultural Food Fair" is buzzing in my head, and I can't wait to plan it with you!

In a bid to immerse visitors in authentic dishes from different countries, it would be a good idea if we could display how to cook some our special cuisine on the scene and introduce its cultural and symbolic significance to visitors. Better still, interactive cooking workshops could be arranged, where visitors will be invited to sample the foods and hands-on cooking will be provided to engage the audience. To ensure everything runs smoothly, let's schedule a detailed discussion session. Could we meet online next Tuesday at 6 PM? During this meeting, we can finalize the list of representing dishes, decide on our responsibilities, and create a timeline for preparations.

Looking forward to your feedback on my suggestions and confirmation regarding the meeting time. I am confident that we can make this "Cross-Cultural Food Fair" an unforgettable experience for everyone in our school community.

Yours,

As the technology is racing ahead, education is undergoing a digital transformation, which presents/poses challenges as well as opportunities to us high school students.

AI serves as a valuable learning assistant for students to perform personalized learning based on individual needs and gain real-time feedback and targeted guidance, thus enhancing learning experiences and outcomes. However, it also raises concerns. Chances are that the convenience and

intelligence of this tool can make cheating and academic misconduct more accessible. Worse still, it simplifies the process of obtaining answers, which may hinder students' motivation of independent research and critical thinking.

Therefore, AI should be applied in learning with caution. It is essential for students to take a comprehensive view of AI and use it wisely.
