鄱阳湖湿地旅游资源类型及其空间分布格局分析

Analysis on the types and spatial distribution of wetland tourism resources in Poyang Lake

中英文摘要

摘要: 随着生态文明与绿色发展理念逐步深入人心, 湿地生态旅游也步入了发展的快车道。鄱阳湖作为我国东部典型的湖泊湿地生态系统, 其独特的湿地旅游资源, 配合宏观的区位、交通、客源地等优势, 成为发展湿地生态旅游的重要条件。本文聚焦于鄱阳湖湿地旅游资源, 通过大量的文献和资料检索收集整理了大量的旅游景点, 分析了鄱阳湖湿地范围内主要湿地旅游资源的类型特征, 并利用 ArcMap 地理信息处理软件着重研究探讨鄱阳湖湿地旅游资源在环湖地区的分布格局, 目的是为鄱阳湖湖区发展湿地旅游业、优化旅游资源及其涉及旅游发展的基础设施的空间配置提供有价值的借鉴与参考。

关键词: 鄱阳湖湿地; 湿地旅游资源类型; 空间分布格局; 湿地旅游资源分类

Abstract: With the concept of ecological security and green development gradually gaining popularity, the development of wetland eco-tourism in recent years has also stepped into the fast lane. As a typical lake wetland ecosystem in eastern China, Poyang lake area is endowed with unique wetland tourism resources, which, in combination with its macro location, transportation and tourist sources, has become an important condition for the development of wetland eco-tourism. Therefore, this article focused on the Poyang lake wetland tourism resources, through a lot of literature and information retrieval and use ArcMap geographic information processing software focuses on research of Poyang lake wetland tourism resources in the region surrounding the distribution pattern and the main types of wetland tourism resources within the scope of the Poyang lake wetland, the purpose is for the development of Poyang lake wetland tourism, optimize tourism resources and its spatial configuration involving in tourism development of infrastructure to provide valuable reference and reference.

Keyword: Poyang lake wetland; types of wetland tourism resources; tourism resources spatial distribution pattern; classification of wetland tourism resources
