CHAPTER 01

GDP contribution of total agriculture sector in Myanmar from financial year 2011 to 2020 (in trillion Myanmar kyat)

GDP contribution of total agriculture Myanmar FY 2011-2020

3

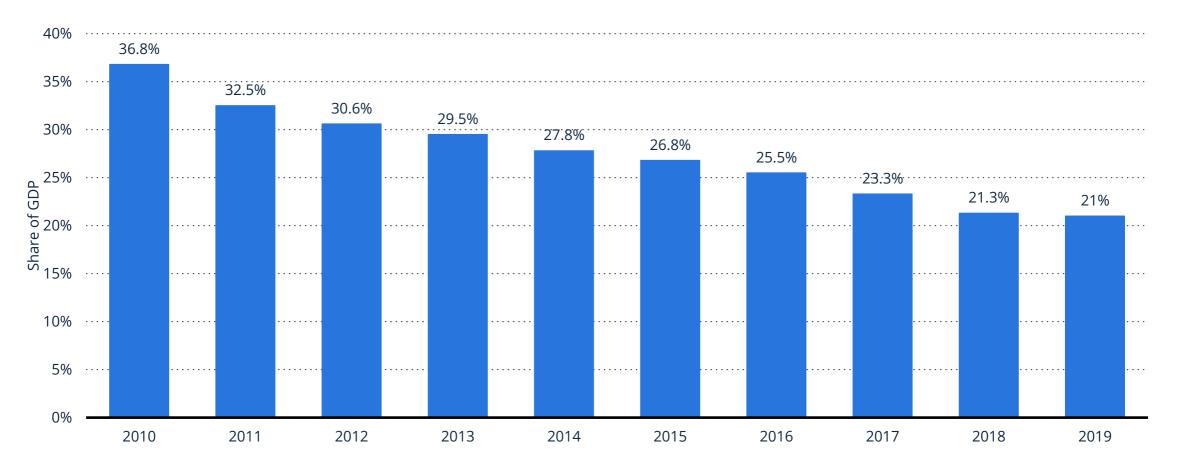

statista 🔽

Description: The availability of fertile lands and an abundance of fresh water resources make Myanmar an ideal place for agricultural practices. Agriculture has always been considered a pillar of the country's economy. It has generated wealth and employs a large number of people. In 2020, the agricultural sector's gross domestic product (GDP) contribution was almost 24.53 trillion Myanmar kyat. <u>Read more</u> Note(s): Myanmar [Burma]; FY 2011 to FY 2020; figures at current prices Source(s): MMSIS; MOPF

Share of GDP contribution from the total agriculture sector in Myanmar from financial year 2010 to 2019

Share of GDP contribution from total agriculture sector Myanmar FY 2010-2019

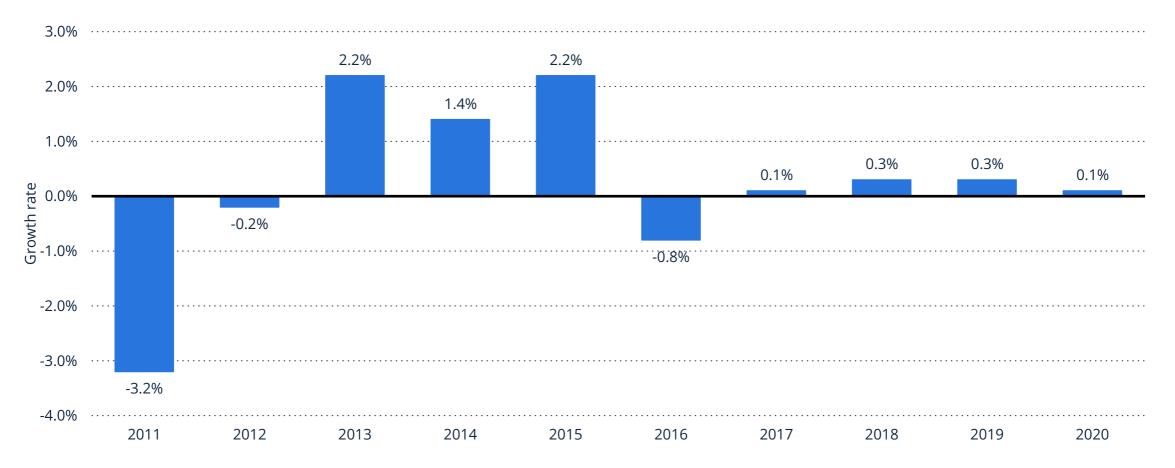

Description: In 2019, the share of the GDP contribution from the total agriculture sector in Myanmar was approximately 21 percent. This was a dramatic decrease from 2010, in which the total agriculture sector contributed approximately 36.8 percent towards the GDP in Myanmar. Read more Note(s): Myanmar. Read more Source(s): Myanmar [Burma]; FY 2010 to FY 2019; figures at current prices Source(s): MMSIS: MOPF

Growth of GDP contribution from the agriculture sector in Myanmar from financial year 2011 to 2020

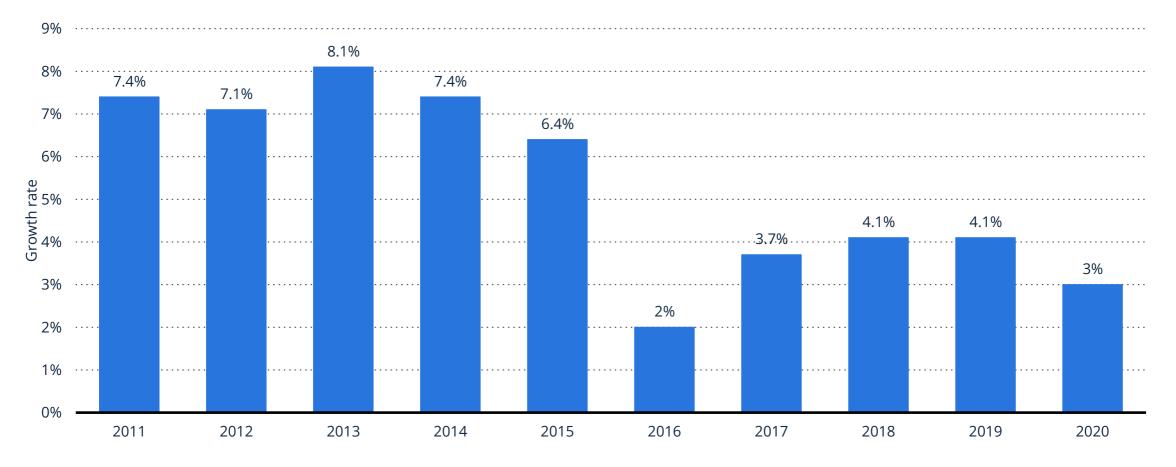

Growth of GDP contribution from agriculture sector Myanmar FY 2011-2020

Growth of GDP contribution from the livestock and fishery sector in Myanmar from financial year 2011 to 2020

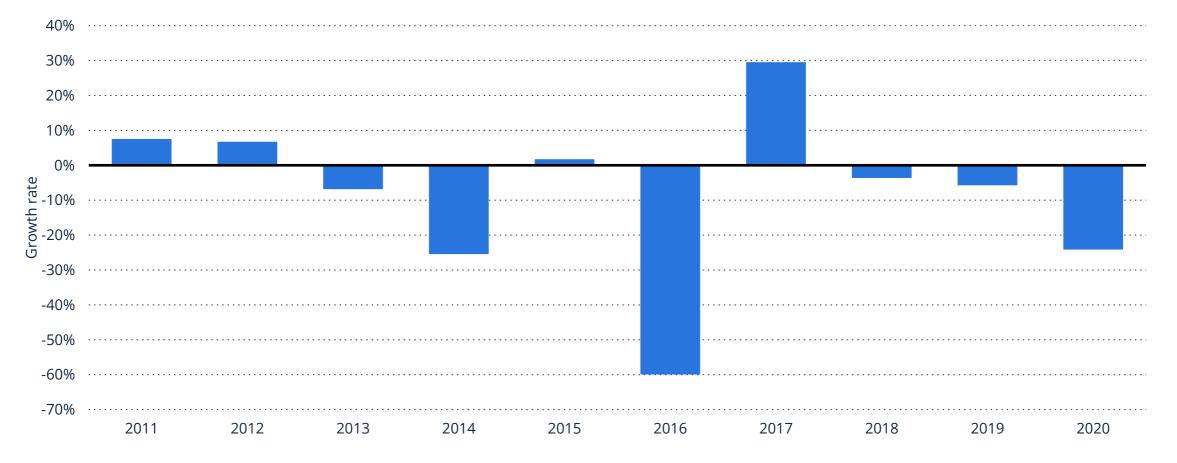

Growth of GDP from livestock and fishery sector Myanmar FY 2011-2020

Description: In 2020, the GDP contribution of the livestock and fishery sector grew by three percent in Myanmar. This was a decrease from 2019 in which the GDP contribution of the forestry sector grew by just over four percent in Myanmar. Read more Note(s): Myanmar [Burma]; FY 2011 to FY 2020; figures at current prices Source(s): MMSI MOPF

Growth of GDP contribution from the forestry sector in Myanmar from financial year 2011 to 2020

Growth of GDP contribution from forestry sector Myanmar FY 2011-2020

Description: In 2020, the GDP contribution of the forestry sector decreased by 24 percent in Myanmar. This was a dramatic decrease from 2019, in which the GDP contribution of the forestry sector shrank by 5.6 percent in Myanmar. CHAPTER 02

Crops

Total arable land in Myanmar from 2012 to 2021 (in 1,000 hectares)

Arable land Myanmar 2012-2021

9

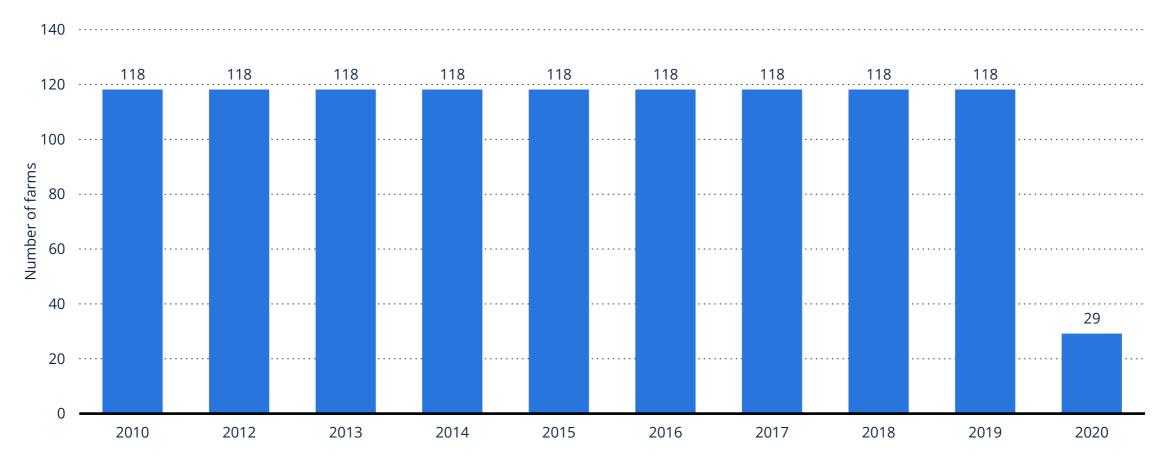

Description: In 2021, the total arable land in Myanmar amounted to close to 11 million hectares. This was a small increase from 2012, in which the total arable land in Myanmar reached approximately 10.75 million hectares. Read more Note(s): Myanmar [Burma]; 2012 to 2021 Source(s): World Bank

Number of developed agriculture farms in Myanmar from 2012 to 2020

Number of developed agriculture farms Myanmar 2012-2020

10

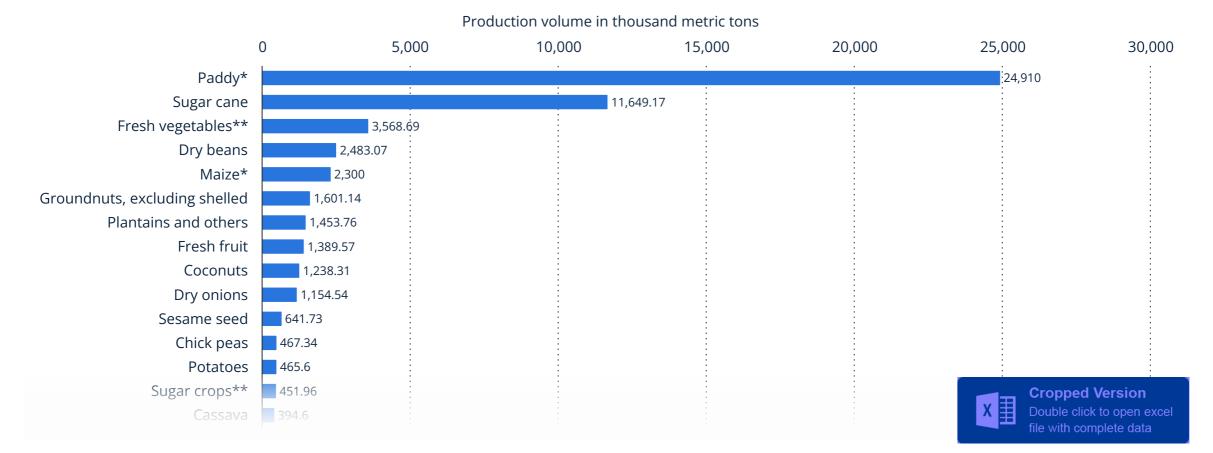

Description: In 2020, the number of developed agriculture farms in Myanmar amounted to 28, which which was a significant decrease compared to the previous years. There was only one agriculture office in Myanmar in that same year. Read more Note(s): Myanmar [Burma]; 2012 to 2020 Source(s): MMSIS; MOBA

Production volume of main crops in Myanmar in 2021 (in 1,000 metric tons)

Main crop products Myanmar 2021, by production volume

11

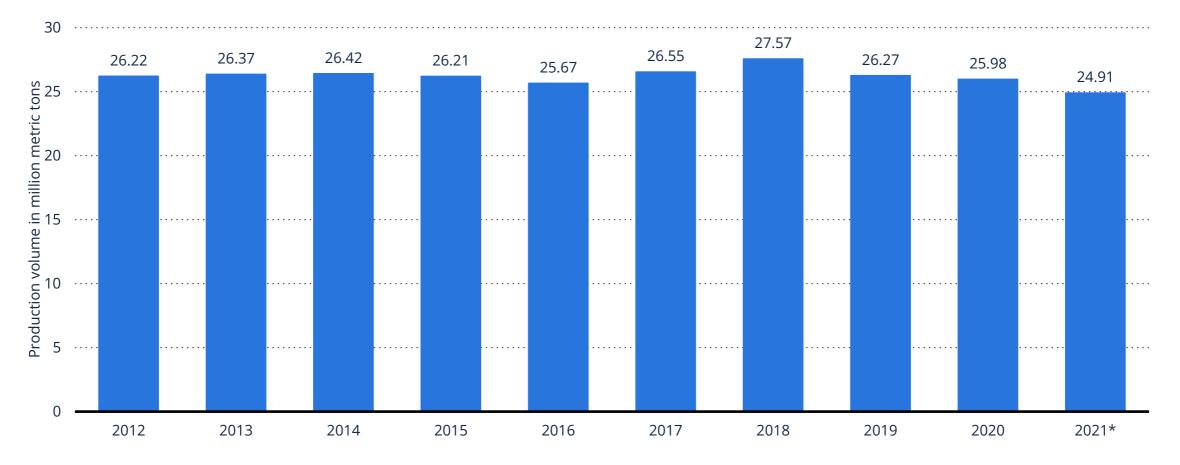

Description: Rice, also known as paddy, has been the leading crop product in Myanmar's agriculture with a production value of 24.91 million tons in 2021. This was followed by sugar cane, with a production volume of about 11.65 million tons. Read more Note(s): Myanmar [Burma]; 2021; *Unofficial figure. **Estimated value. Figures have been rounded. Values based on imputation methodology. Read more Source(s): FAO

Paddy production volume in Myanmar from 2012 to 2021 (in million metric tons)

Paddy production volume Myanmar 2012-2021

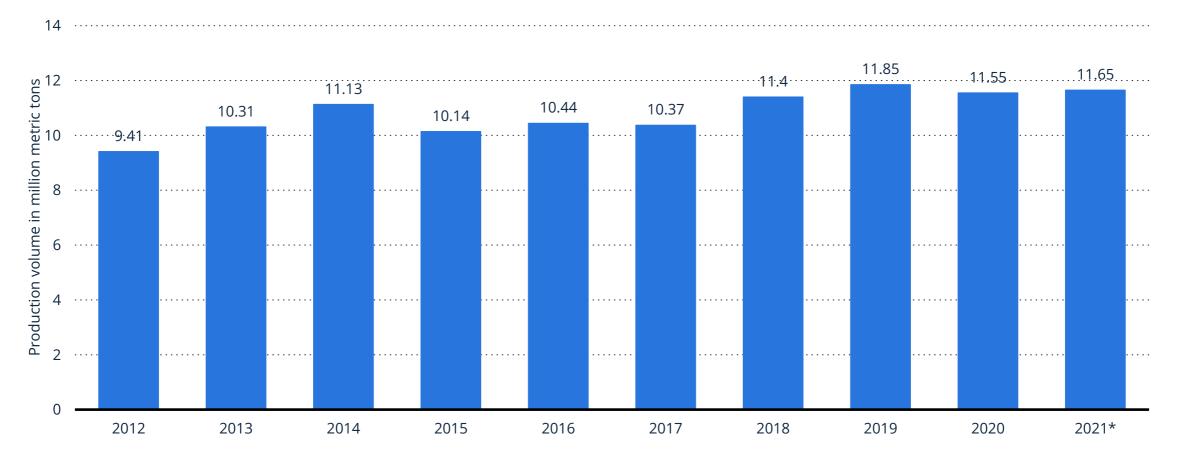

12

Description: In 2021, the production volume of paddy in Myanmar was approximately 24.9 million tons. This was a decrease from 2012, in which approximately 26.22 million tons of paddy was produced in Myanmar. Read more Note(s): Myanmar [Burma]; 2012 to 2021; *Unofficial figure. Figures have been rounded. Read more Source(s): FAO

Sugar cane production volume in Myanmar from 2012 to 2021 (in million metric tons)

Sugar cane production volume Myanmar 2012-2021

Description: In 2021, the production volume of sugar cane in Myanmar was approximately 11.65 million tons. This was an increase from 2012, in which approximately 9.41 million tons of sugar cane was produced in Myanmar. Read more Note(s): Myanmar [Burma]; 2012 to 2021; * Data based on FAO imputation technology. Figures have been rounded. Read more Source(s): FAO
