大学英语六级作文 篇 1

High Salaries or Career Development?

There are more and more people looking for jobs every year, but they have different views about what kind of job they should choose. Some of them focus their attention on the jobs that promise high salaries. Others show a preference for those jobs that offer chances to learn skills and advancement possibilities.

People holding the first view usually think that more money will result in more happiness. With a lot of money in hand, they will be able to enjoy a rich life. Otherwise, they will suffer from depression due to lack of enough money. However, the holders of the second view argue that one should develop his skills as roundly as possible. It is career development that counts most. Without development, you will be outrun by others and fall behind the times sooner or later.

大学英语六级作文 篇 2

“Never give up” can be very encouraging words, but the majority of youngsters are likely to give up

regardless when dealing with the ordinary difficulties of life. As one example, many young people are reluctant to continue their English study when they feel difficulty learning new words. But if one takes “never give up” as a motto, possibilities and opportunities are expanded.

It is true that giving up may make things temporarily easier, but what cannot be denied is that new opportunities arise from perseverance. Never giving up can expand one's possibility for success. When confronted with something unknown, a little bravery can result in the possibility of success, like when Dr. Fleming discovered penicillin. Meanwhile, the sense of never giving up enhances one's self-confidence. This makes one more likely to try new things, opening up even more new opportunities. It can even be a benefit to personal relationships.

In view of all factors, never giving up is crucial to the pursuit of dreams. Even though toils lie in the way, success is at the other end.

“永不放弃”是非常令人鼓舞的话，但是在面对生活中的日常困难时，大多数的年轻人可能会不顾一切地放弃。比

如说，许多年轻人在学新单词遇到困难时，就不太愿意继续学英语了。但如果一个人将“永不放弃”作为自己的座右铭，就会有更大的发展前途和更多机会。

没错，放弃可能使事情暂时变得容易，但不可否认的是，坚持不懈就会有新的机会出现。永不放弃能增加人们成功的机会。在面对未知事物时，一点点勇气就可能带来成功，就像弗雷明教授发现青霉素一样。与此同时，永不放弃的意识可以增强一个人的自信，让人们更有可能尝试新事物，开启更多的新机会，甚至有利于人际关系。

考虑到所有这些因素，永不放弃对于追求梦想非常重要。尽管过程中会有艰辛，但成功就在彼岸。

大学英语六级作文 篇3

We must uphold these core virtues including diligence, honesty, justice and responsibility. Traditionally, we Chinese admire the virtue of plain living and hard struggle. The vital importance is also placed on honesty and justice.

In my eyes, however, responsibility tops our priority. To shoulder some heavy responsibilities, we must keep a style of plain living and hard struggle. Responsibility also means honesty and justice. Everyone must assume a set of responsibilities. For

example, we college students must take the responsibility for pursuing the impressive academic performance. But an army of students plant themselves in online games, an activity which compels them to shun huge responsibilities.

the virtue of responsibility is strongly associated with the Eight Dos and Don'ts moral campaign in full swing. Under this slogan, everyone must take on his/her own responsibilities and dedicate to his/her own position. Unquestionably, everyone must promote the socialist concept of honor and disgrace.

大学英语六级作文 篇 4

For most senior students in universities, the last academic year has nothing to do with academics. To the frustration of professors, few courses are attended by students. And dorms are almost vacant with few lodgers. This kind of phenomenon, which has been called "Senior Empty Nests", is common among universities of China.

Where have those absent senior students gone? Some lucky dogs have gone to their new jobs while the majority are still striving to get a job or engaging in their internship outside of the campus. The severe

employment pressure has pushed senior students into employment market earlier. The anxiety of getting a job before graduation disturbs the restless mind of every student, which leads to skipping school of most students.

In my view, with senior students leaving campus earlier, their time of education has been reduced, which puts them in a disadvantaged position in the employment market. Students should start job hunting after finishing the courses of the last academic year. At the same time, the universities should provide career education for senior students.

According to the investigation of the income sources of students, the income of American and Chinese students comes from parents, part-time job and scholarship. However, the percentage of each income is quite different. Fifty percent of the American students income comes from their parents, fifteen percent comes from the scholarships granted by colleges and universities and the rest comes from part-time jobs. Ninety percent of Chinese students income comes from

their parents.

In my opinion, the main reasons for the difference is that American students are taught to be independent when they are very young, while Chinese students are taken such good care of that it is very difficult for them to live on their own. Whats more, Chinese students have fewer opportunities to find part-time jobs.

Nowadays more and more Chinese students are seeking part-time jobs. For one thing, some students come from poor areast and their parents cant afford the high cost of education. For another, theyre eager to acquire some social skills and earn some money which will help them do more in school and live independently, AS far as American students are concerned, I think the sources of American students income will remain the same.

大学英语六级作文 篇6

When students are going to high school, they are under great pressure, because their main goal is to enter the college, so they need to work so hard.

The school will test them so often that they want to get the best scores. Cheating on the exams is many students' choice, as they could not do well on the exam,

so they want to find the confidence by getting the high marks. Other students even buy the exam answers, what they do is totally wrong. First, it will cost students a lot of money on buying the answer, it refers to spend their parents' money, it is not easy to earn money. Second, the answers that students buy are not accurate all the time, most of the answers are wrong, students are easy to get cheated.

Students should work hard to improve their study.

When you visit London, one of the first things you will see is Big Ben, the famous clock which can be heard all over the world on the B.B.C. If the Houses of Parliament had not been burned down in 1834, the great clock would never have been erected. Big Ben takes its name from Sir Benjamin Hall who was responsible for the making of the clock when the new Houses of Parliament were being built. It is not only of immense size, but is extremely accurate as well. Officials from Greenwich Observatory have the clock checked twice a day. On the B.B.C. you can hear the clock when it is actually striking because microphones are connected to the clock

tower. Big Ben has rarely gone wrong. Once, however, it failed to give the correct time.

A painter who had been working on the tower hung a pot of paint on one of the hands and slowed it down!

大学英语六级作文 篇8

We all live in the same society. More or less, we get help from others, our parents, relatives, teachers, friends even strangers. In return, we should give others a hand when they are in need. We should transmit this kind of love. As long as everyone can contribute a piece of love, the world will be a paradise. As for our individuals, helping others would bring us happiness and a sense of achievements. We would be happy to see that we are capable of helping others. In addition, helping others is helping ourselves, to some extent.

One of the most beautiful sensations in life is that after helping others in good faith, we get help ourselves at the same time. I think “rose presented, smell remained” is the best description to help others.

Lung-Lung (Dragon-Dragon) liked his new house

which was bigger and nicer than his old one, and he liked all his new neighbors, too. However, there was not one who was a little boy Lung-Lung's size; he was a little upset about that. One day a big steam shovel came rumbling up the hill. It rumbled right into the empty site across the street and started to dig a big hole.

Now lung-lung was so busy watching that he did not even notice when someone came and stood beside him, but he did notice when someone said, 'See that big shovel? It is digging the ground for my new house!' Lung-Lung looked to see who was talking, and it was a little boy just his own size! 'Good!' said Lung-Lung. 'Your new house will be opposite my new house' and we can play together everyday.'
