

INDUSTRIES & MARKETS

Renewable energy in Mexico

Table of Contents

01 Overview

Renewable energy production in Mexico 2011-2021	
Renewable energy production in Mexico 2021, by source	
Share of renewables in primary energy supply in Mexico 2010-2021	
Investments in clean energy in Mexico 2010-2021	
Number of renewable energy jobs in Mexico 2021, by industry	

02 Renewable power

Renewable energy capacity in Mexico 2010-2022	
Renewable electricity generation capacity in Mexico 2022, by source	
Renewable energy production in Mexico 2011-2021	
Renewable power production in Mexico 2021, by source	
Share of renewable energy in electricity generation Mexico 2010-2022	

03 Hydropower

Mexico: installed capacity of hydroelectric power generation 2011-2022	
Hydropower generation capacity in Mexico 2022, by state	
Largest operating hydropower facilities in Mexico 2023, by capacity	
Hydroelectric power production in Mexico 2018-2021	
Share of hydropower in electricity production Mexico 2010-2022	

04 Wind energy

<u>04</u>	Installed wind power capacity in Mexico 2011-2022	<u>22</u>
<u>05</u>	Mexico: wind energy installed capacity 2021, by state	<u>23</u>
<u>06</u>	Largest onshore wind energy farms in Mexico 2023, by capacity	<u>24</u>
<u>07</u>	Wind power production in Mexico 2021	<u>25</u>
<u>08</u>	Share of wind energy in electricity generation Mexico 2010-2022	<u>26</u>
	Mexico: wind power capacity forecast 2021-2034	<u>27</u>

10 05 Solar energy

<u>11</u>	Solar PV installed generation capacity in Mexico 2010-2022	<u>29</u>
<u>12</u>	Utility-scale solar PV generation capacity in Mexico 2022, by state	<u>30</u>
<u>13</u>	Ranking of the largest solar photovoltaic plants Mexico 2023, by capacity	<u>31</u>
<u>14</u>	Solar PV energy production in Mexico 2017-2022	<u>32</u>
	Share of solar in electricity generation Mexico 2010-2022	<u>33</u>
	Solar PV capacity forecast in Mexico 2021-2025	<u>34</u>

16 06 Bioenergy

<u>17</u>		
<u>18</u>	Bioenergy capacity in Mexico 2010-2022	<u>36</u>
<u>19</u>	Bioenergy capacity in Mexico 2022, by state	<u>37</u>
<u>20</u>	Largest operating biopower facilities in Mexico 2023, by capacity	<u>38</u>
	Biopower production in Mexico 2010-2022	<u>39</u>

Table of Contents

Share of bioenergy in electricity generation Mexico 2010-2022

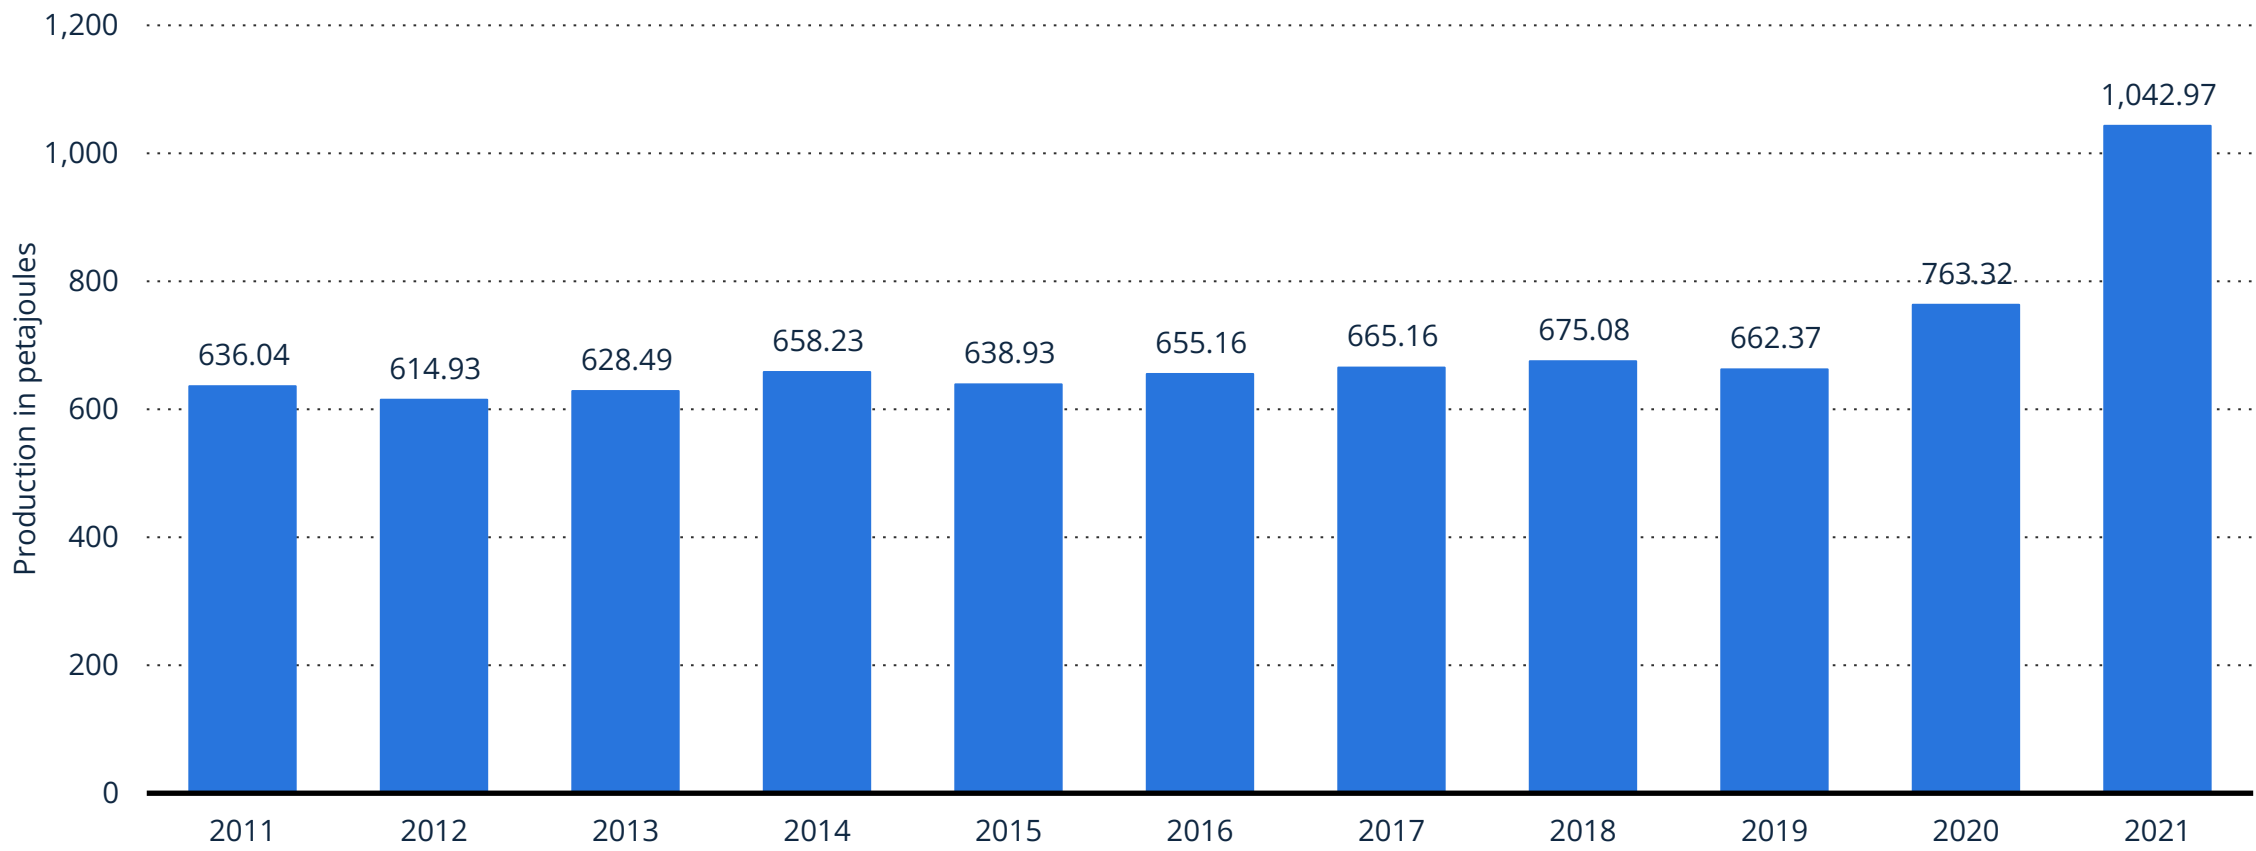

40

CHAPTER 01

Overview

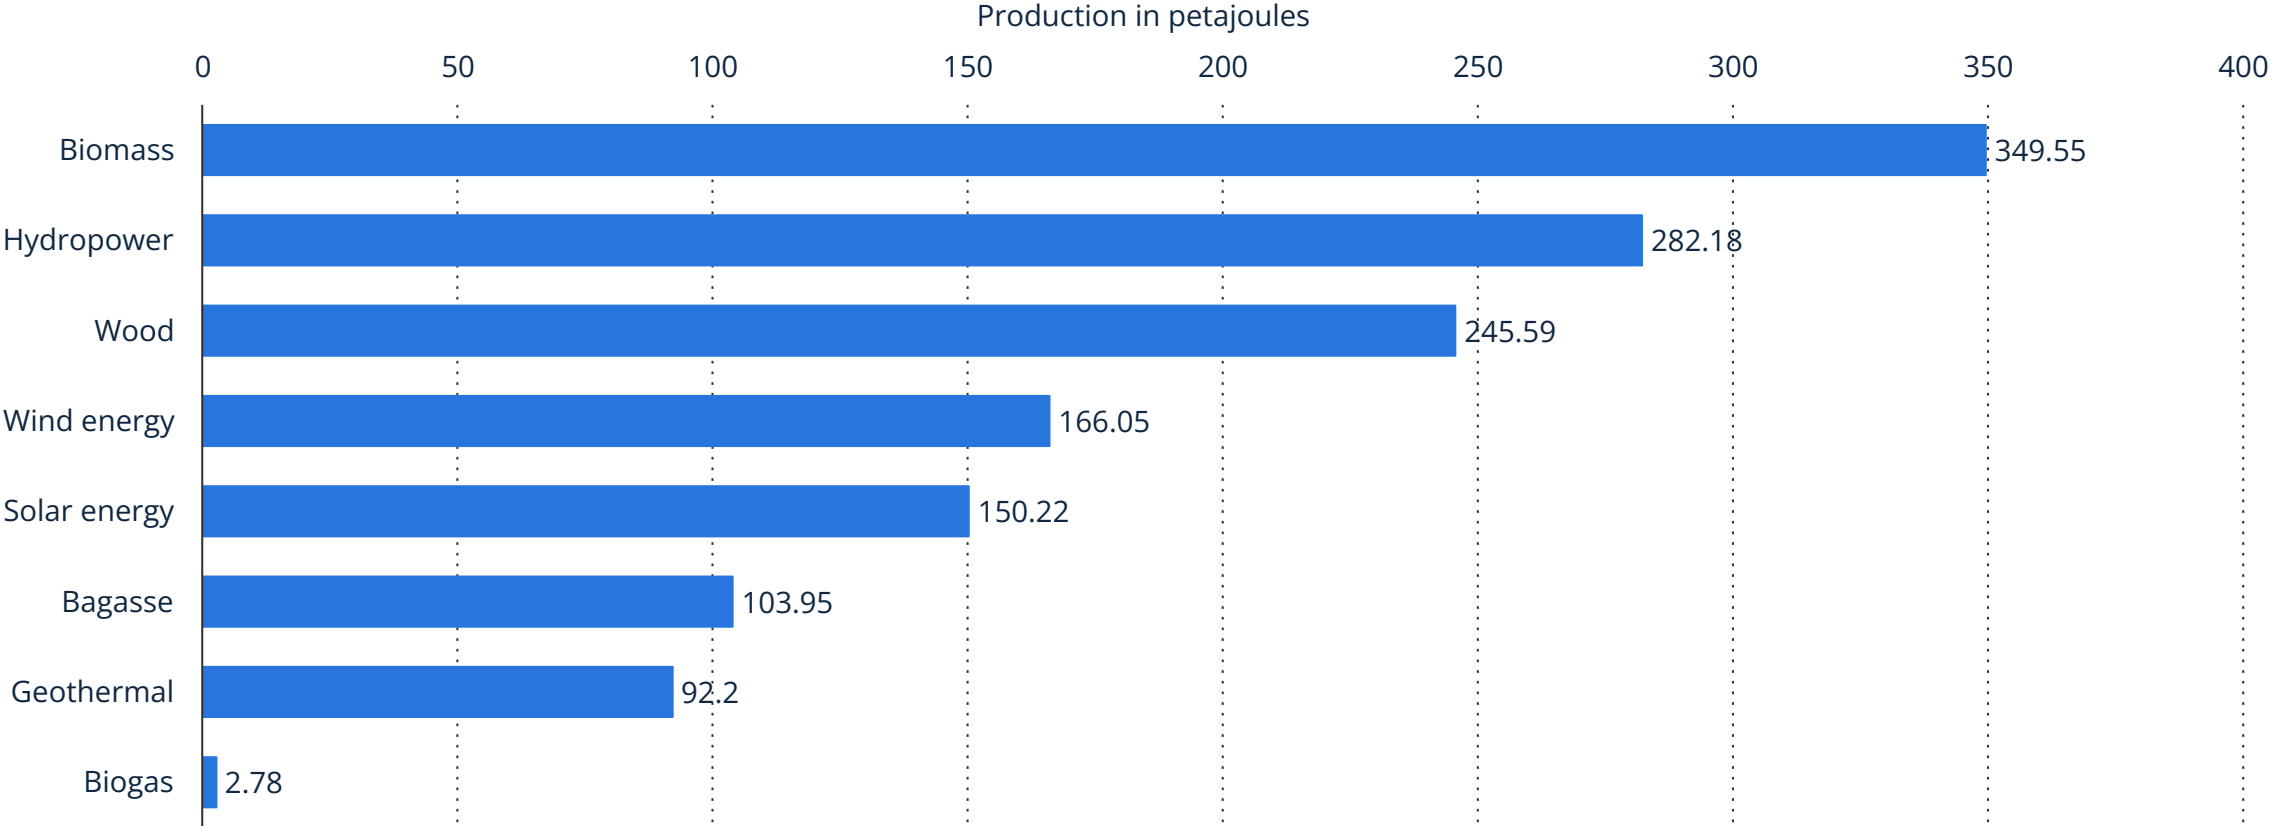

Primary production of renewable energy in Mexico from 2011 to 2021 (in petajoules)

Renewable energy production in Mexico 2011-2021

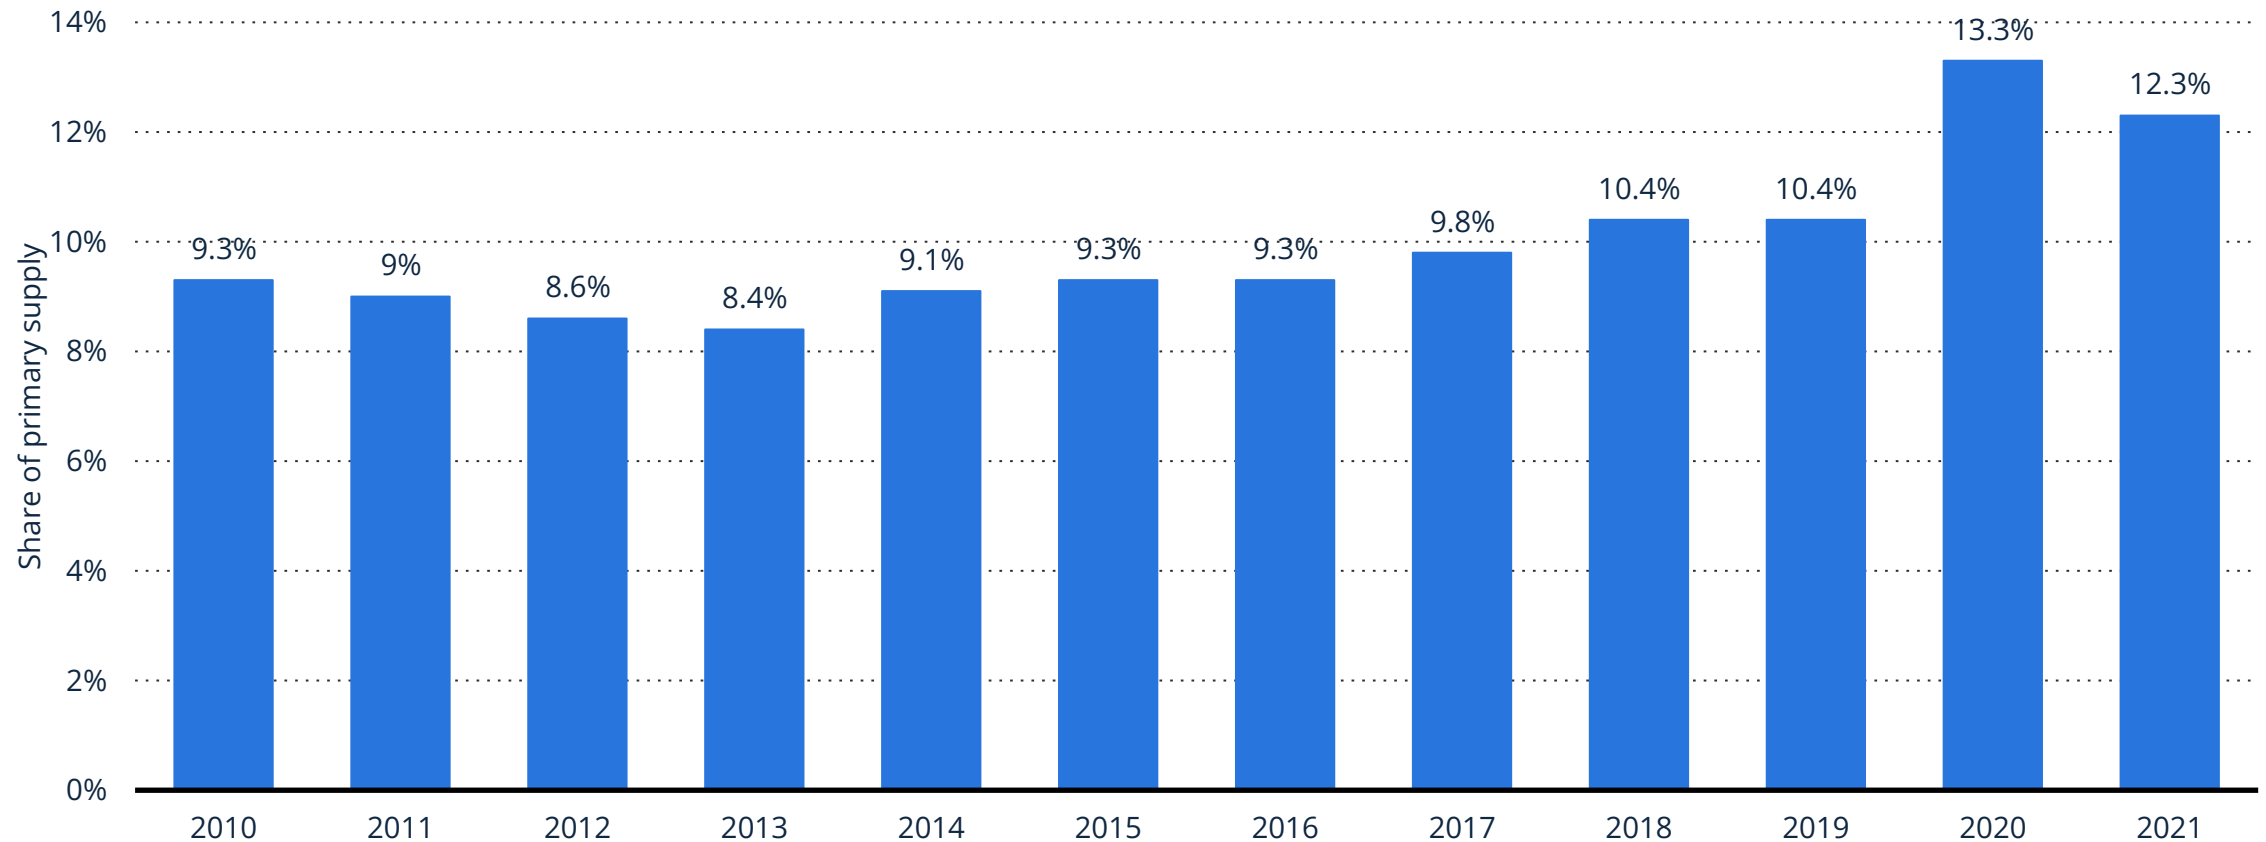

Primary production of renewable energy in Mexico in 2021, by source (in petajoules)

Renewable energy production in Mexico 2021, by source

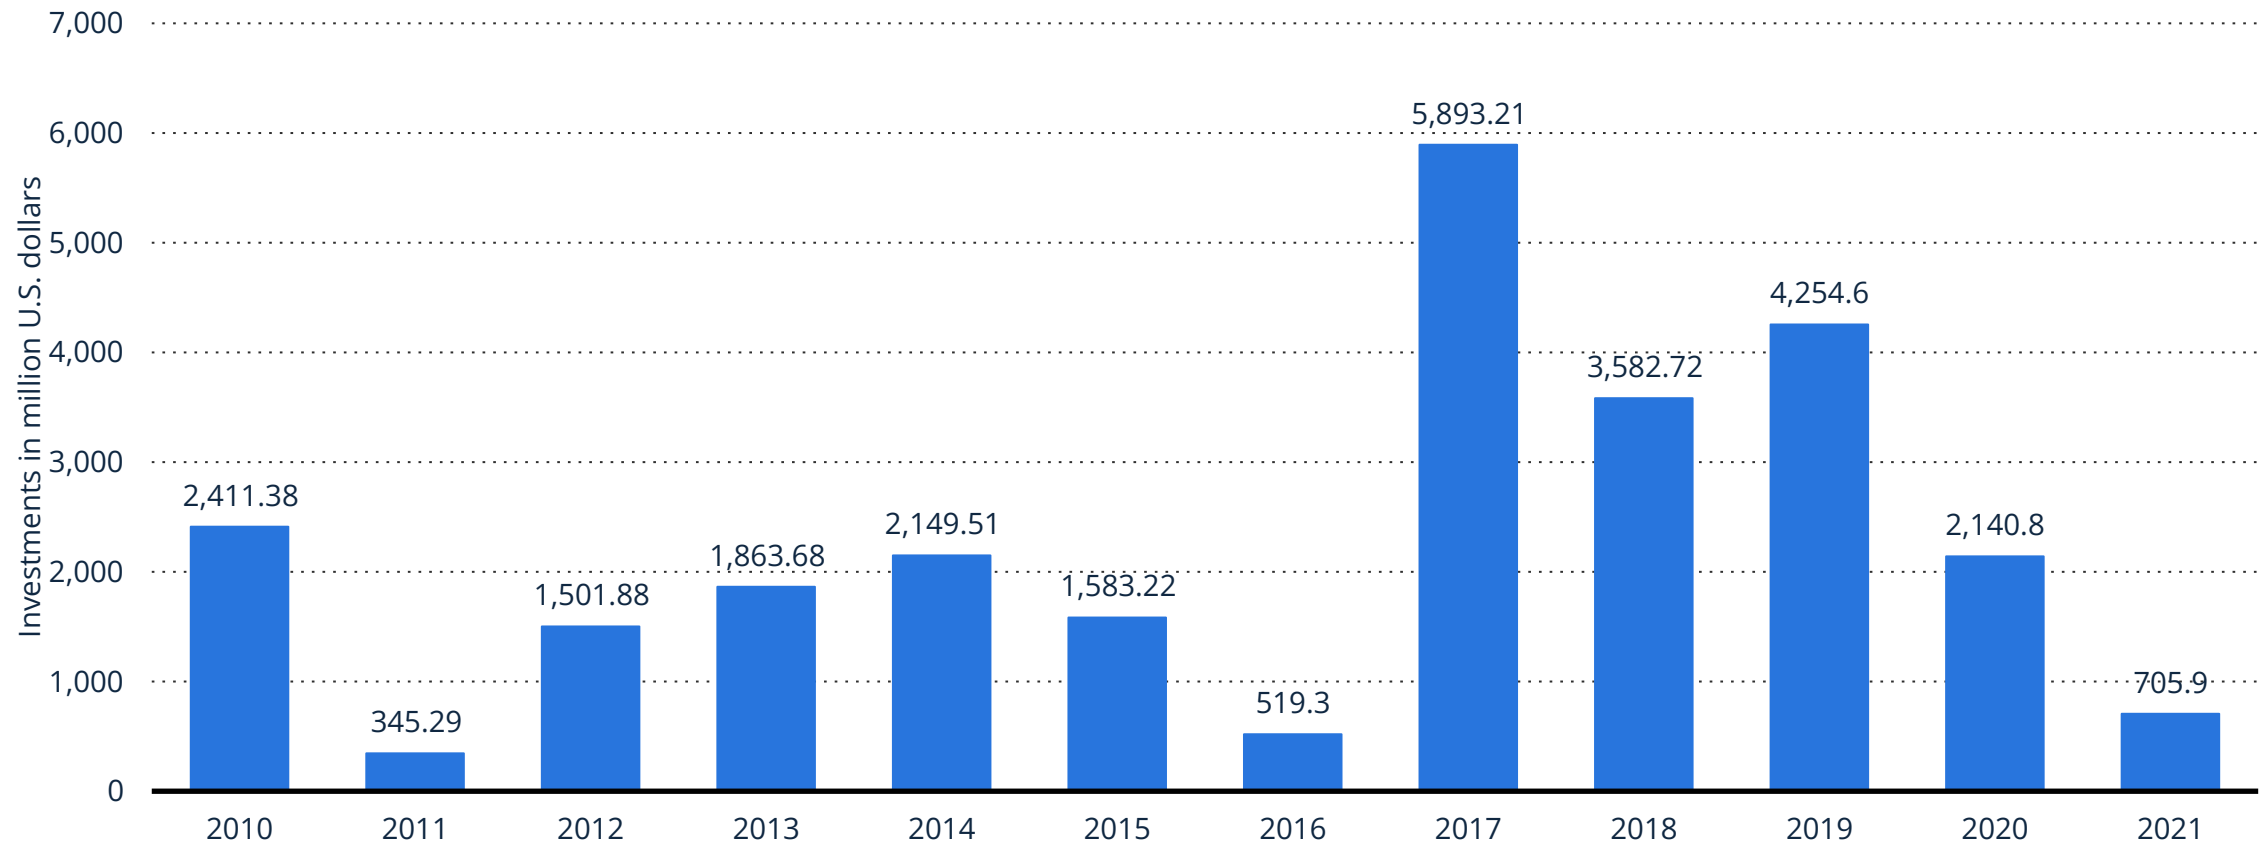

Share of renewables in primary energy supply in Mexico from 2010 to 2021

Share of renewables in primary energy supply in Mexico 2010-2021

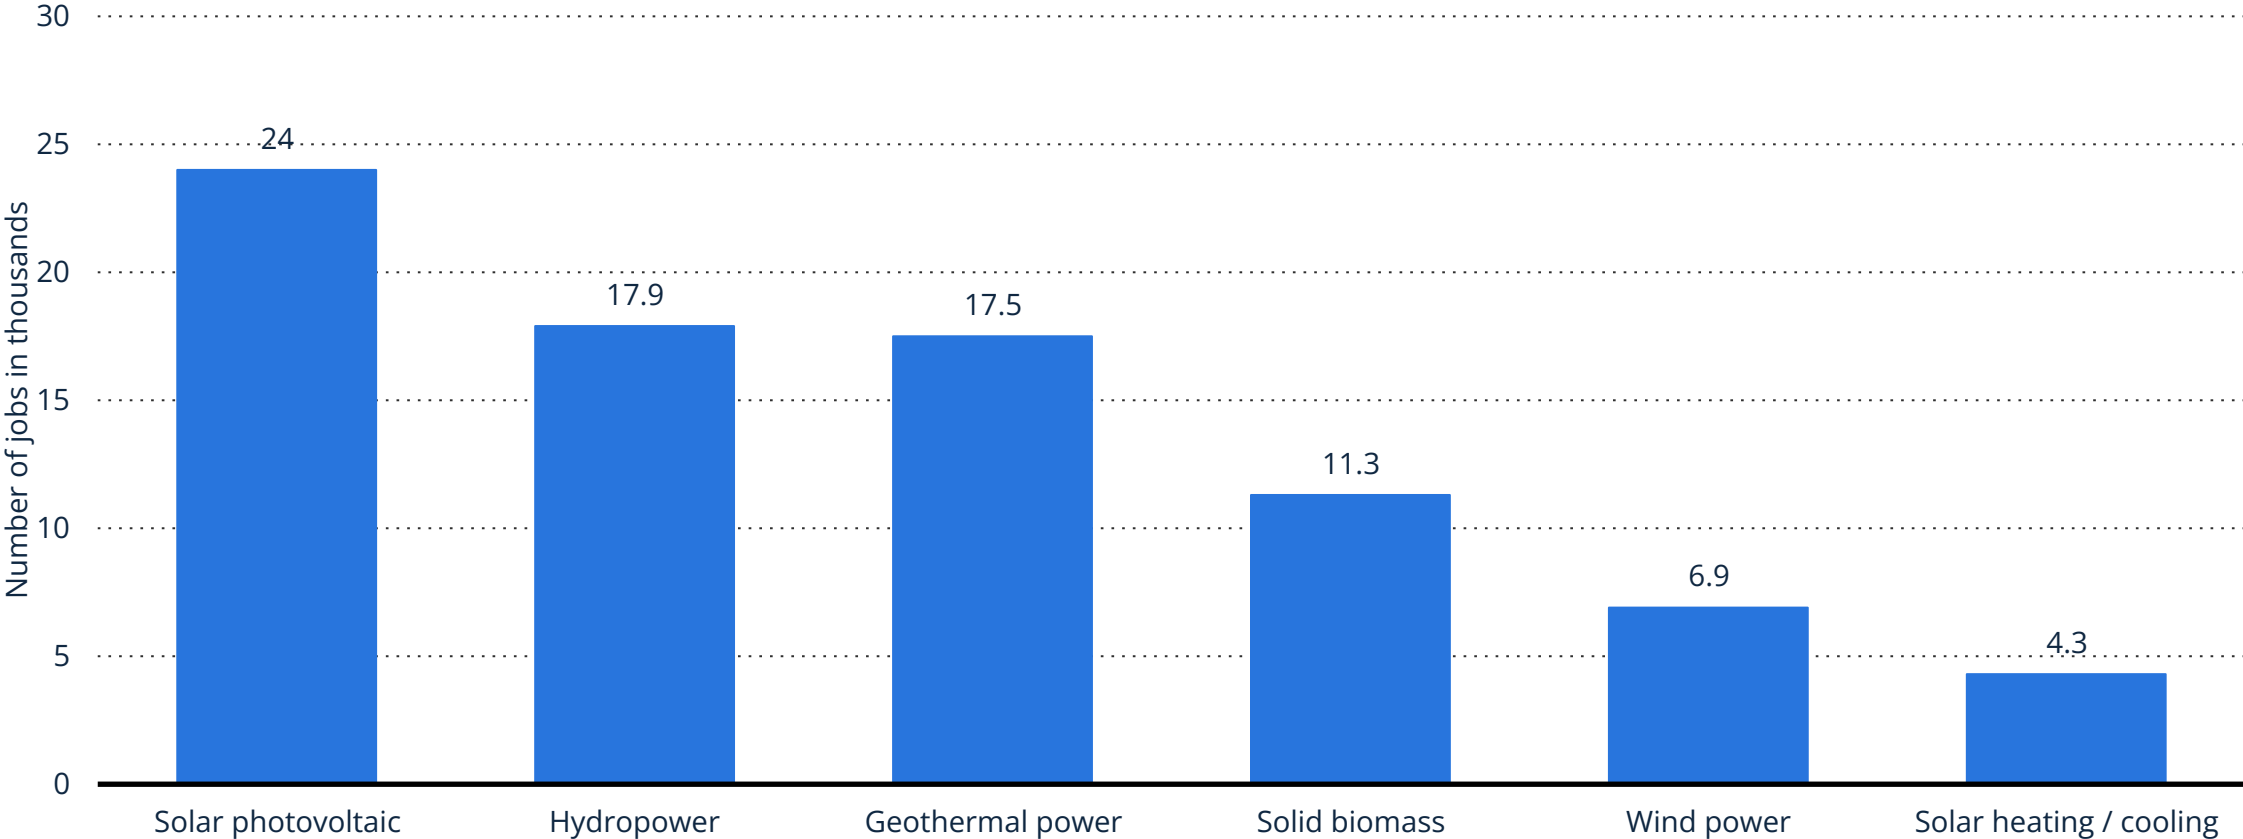

Clean energy investments in Mexico from 2010 to 2021 (in million U.S. dollars)

Investments in clean energy in Mexico 2010-2021

Number of renewable energy jobs in Mexico in 2021, by industry (in 1,000s)

Number of renewable energy jobs in Mexico 2021, by industry

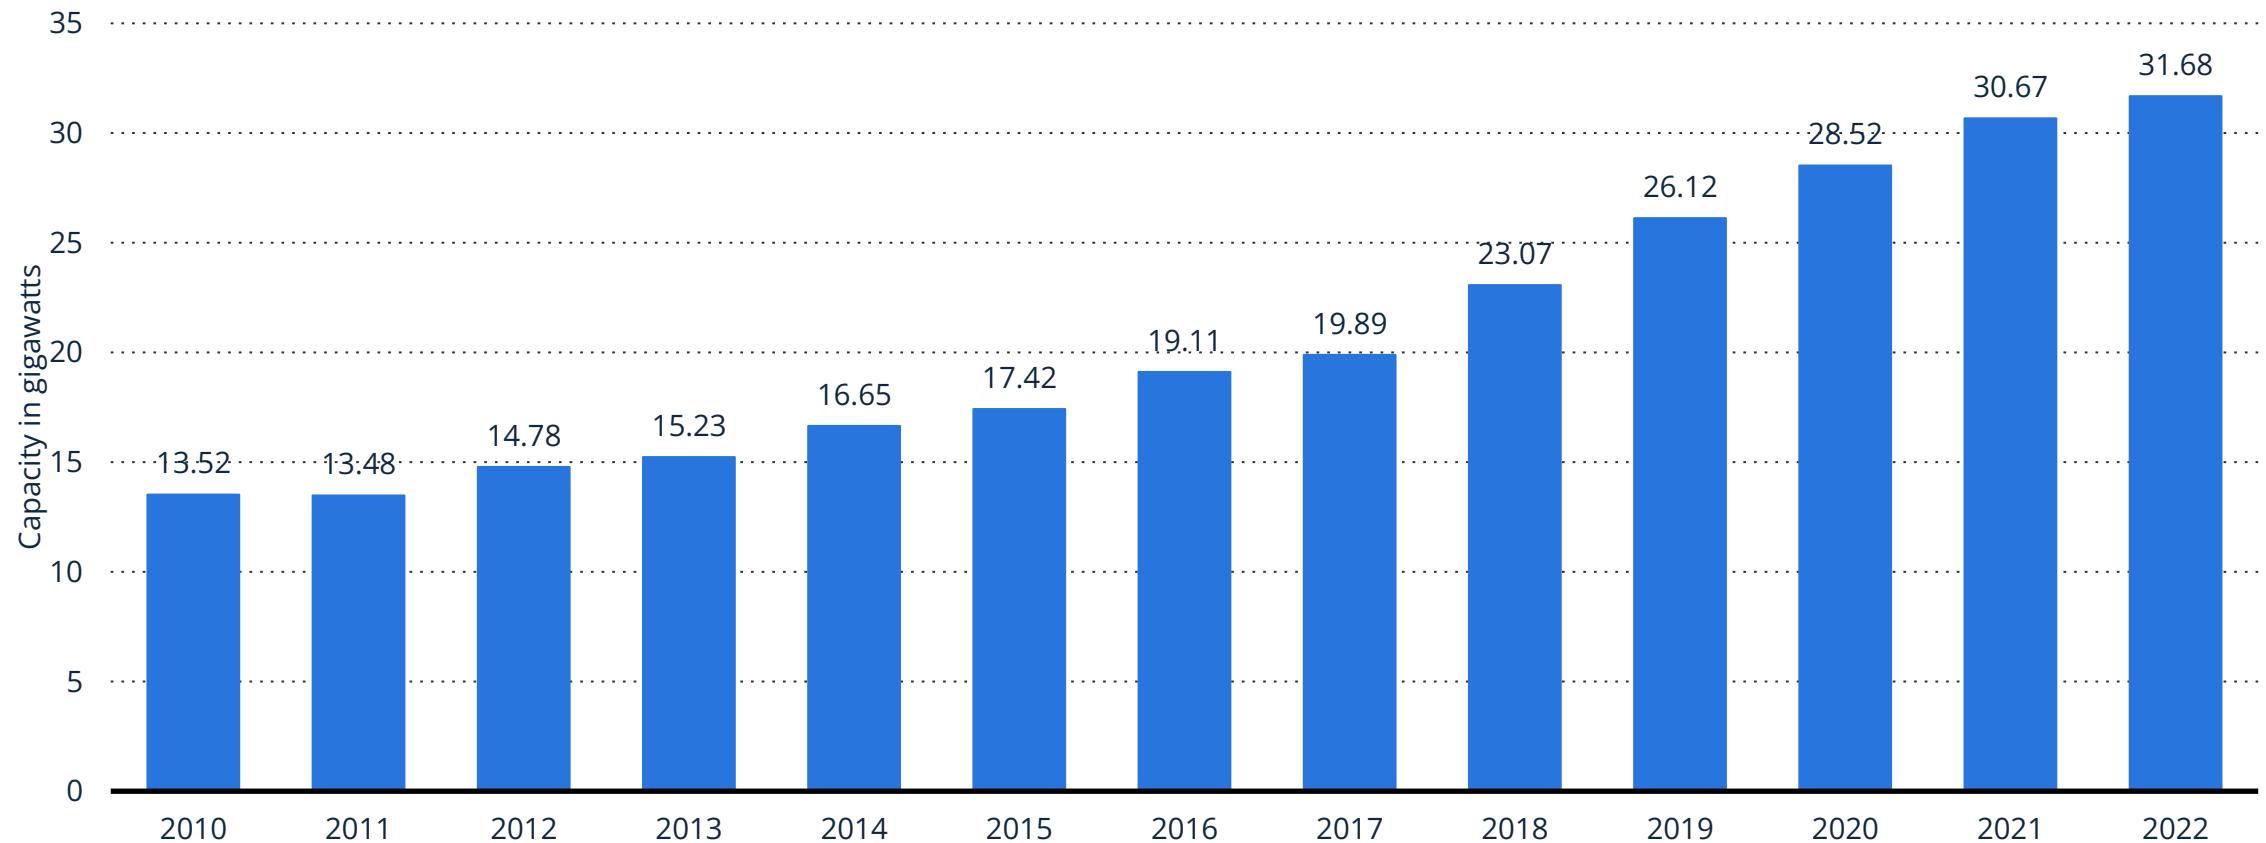

CHAPTER 02

Renewable power

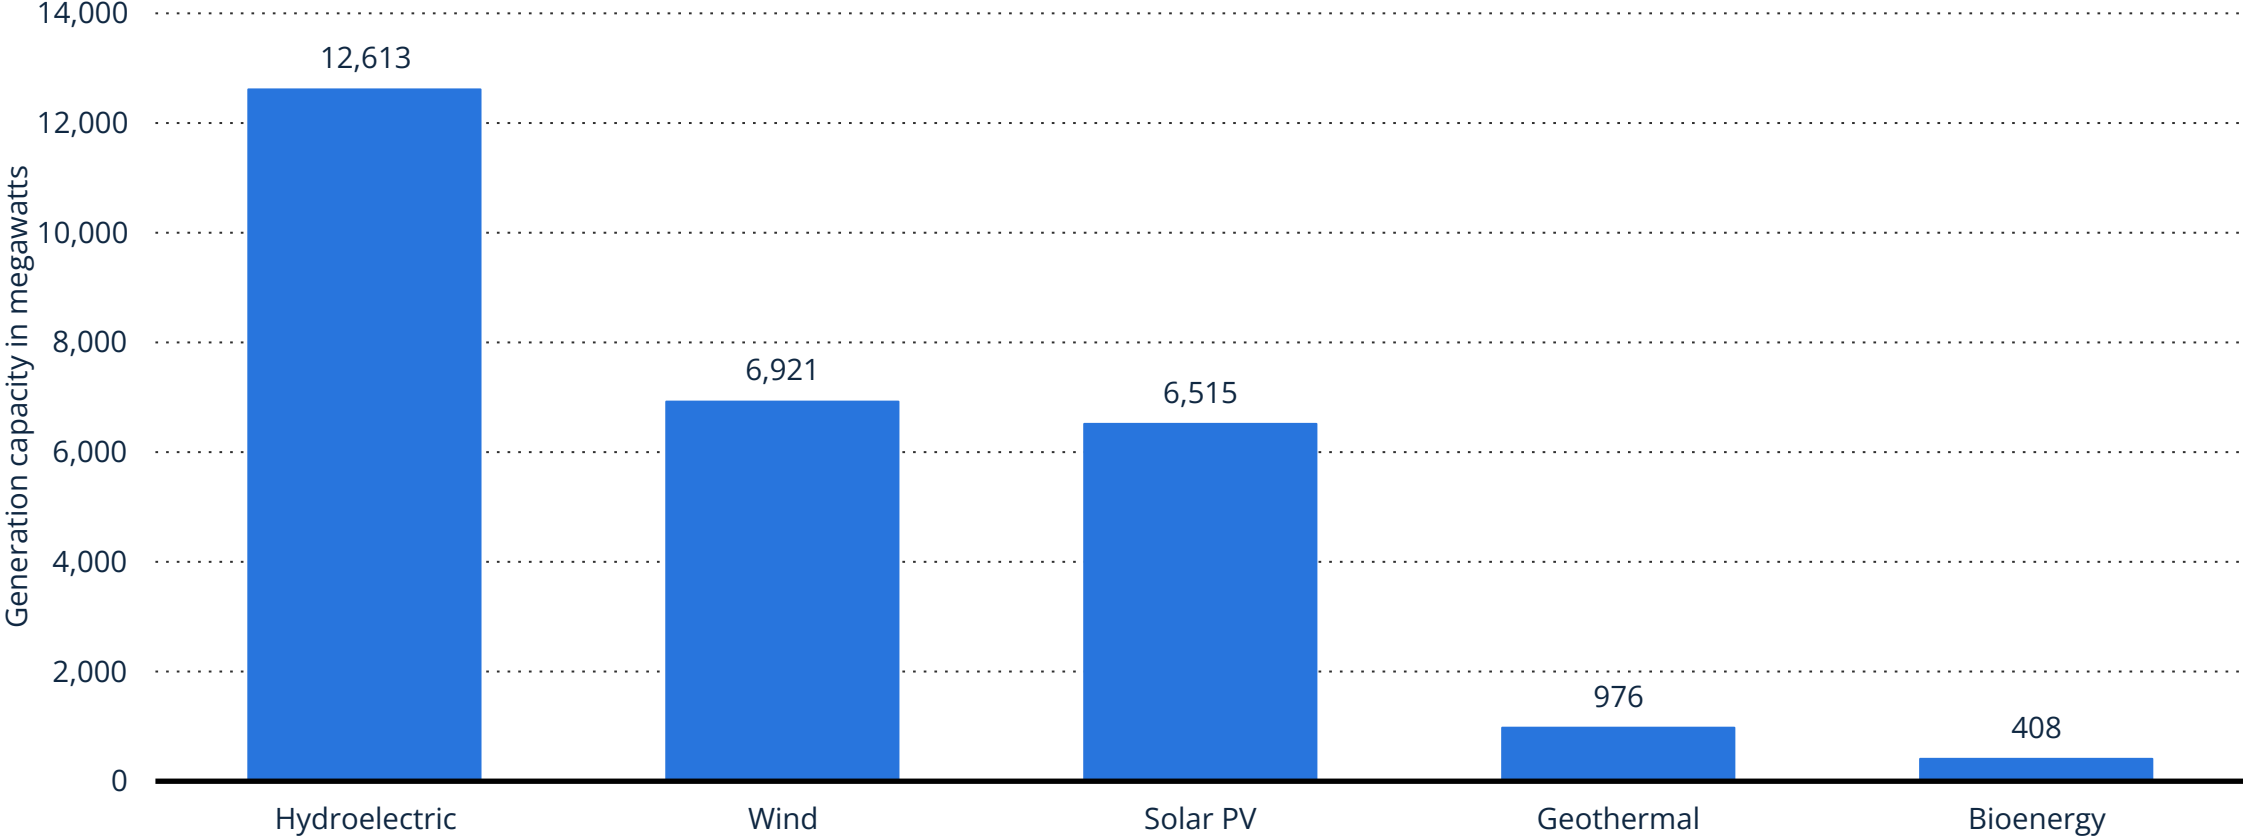

Renewable energy generation capacity in Mexico from 2010 to 2022 (in gigawatts)

Renewable energy capacity in Mexico 2010-2022

Installed renewable electricity generation capacity in Mexico in 2022, by source (in megawatts)

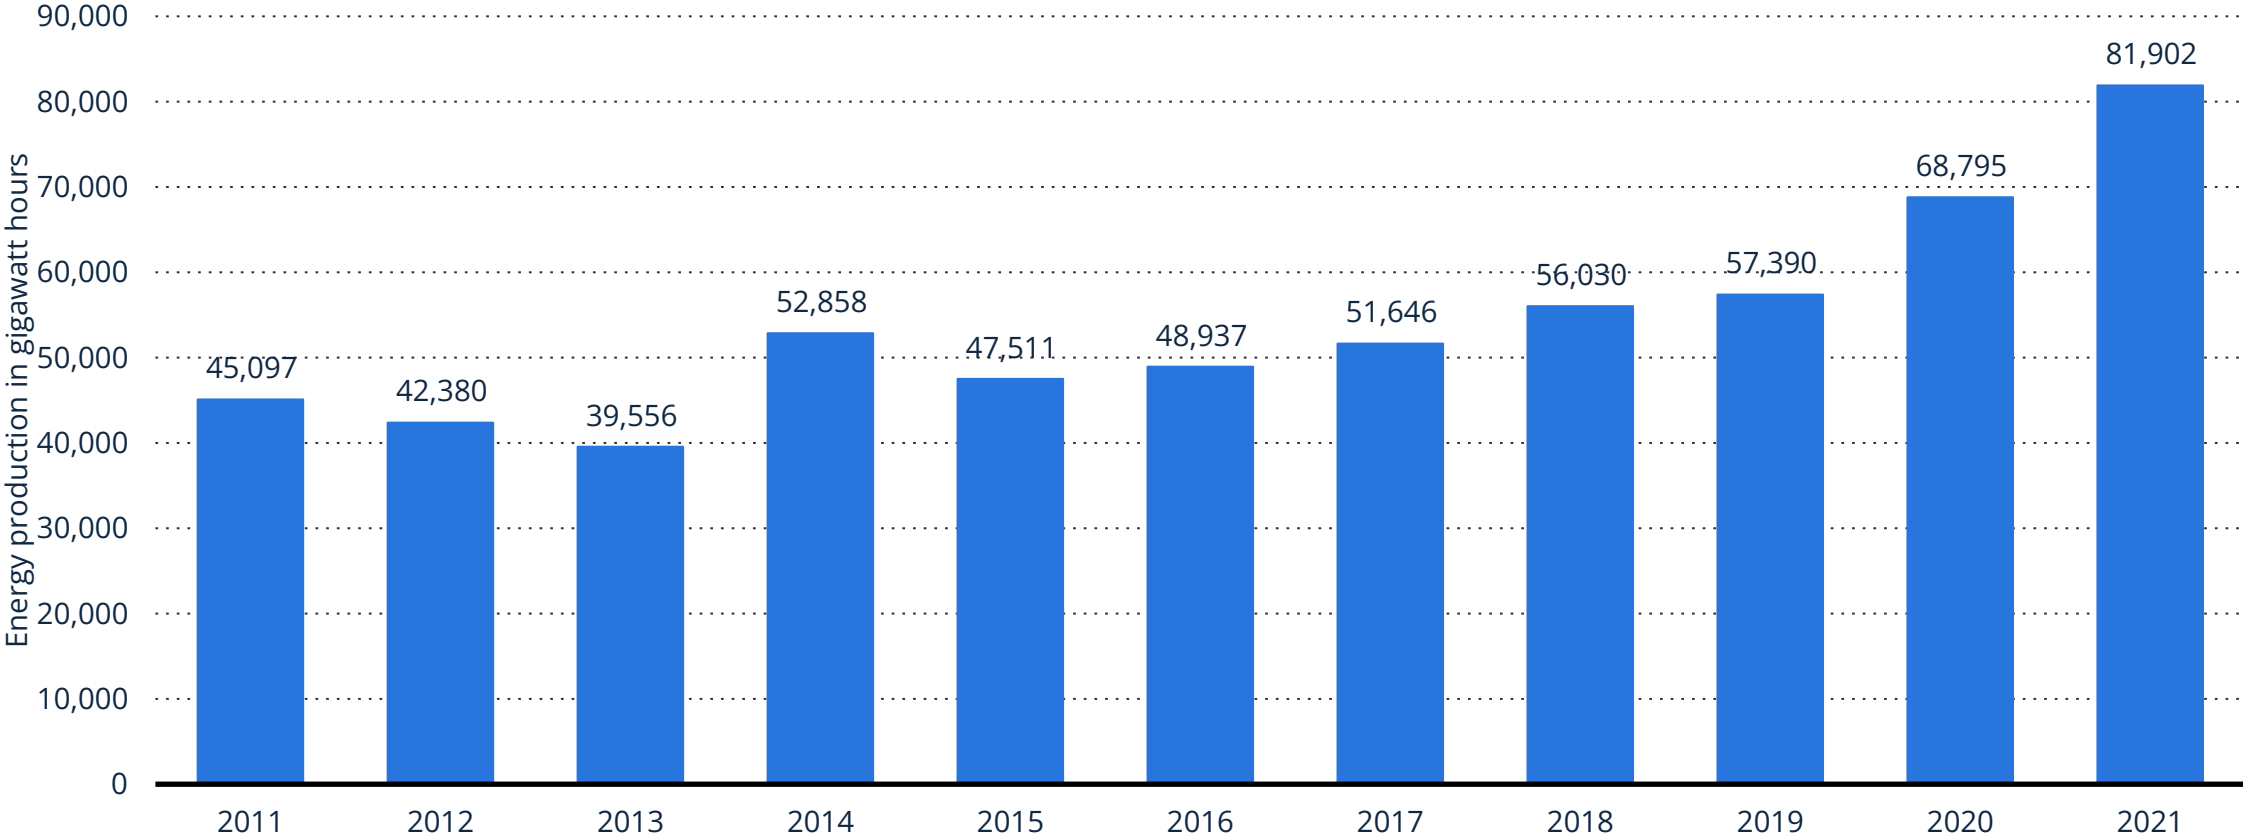

Renewable electricity generation capacity in Mexico 2022, by source

11 **Description:** The statistic shows the installed renewable electricity generation capacity in Mexico in 2022, broken down by source. In 2022, the hydroelectricity generation capacity in the Latin American country amounted to more than 12.6 gigawatts. [Read more](#)
Note(s): Mexico; 2022
Source(s): Centro Nacional de Control de Energía (México); Federal Electricity Commission (Mexico); Ministry of Energy (Mexico)

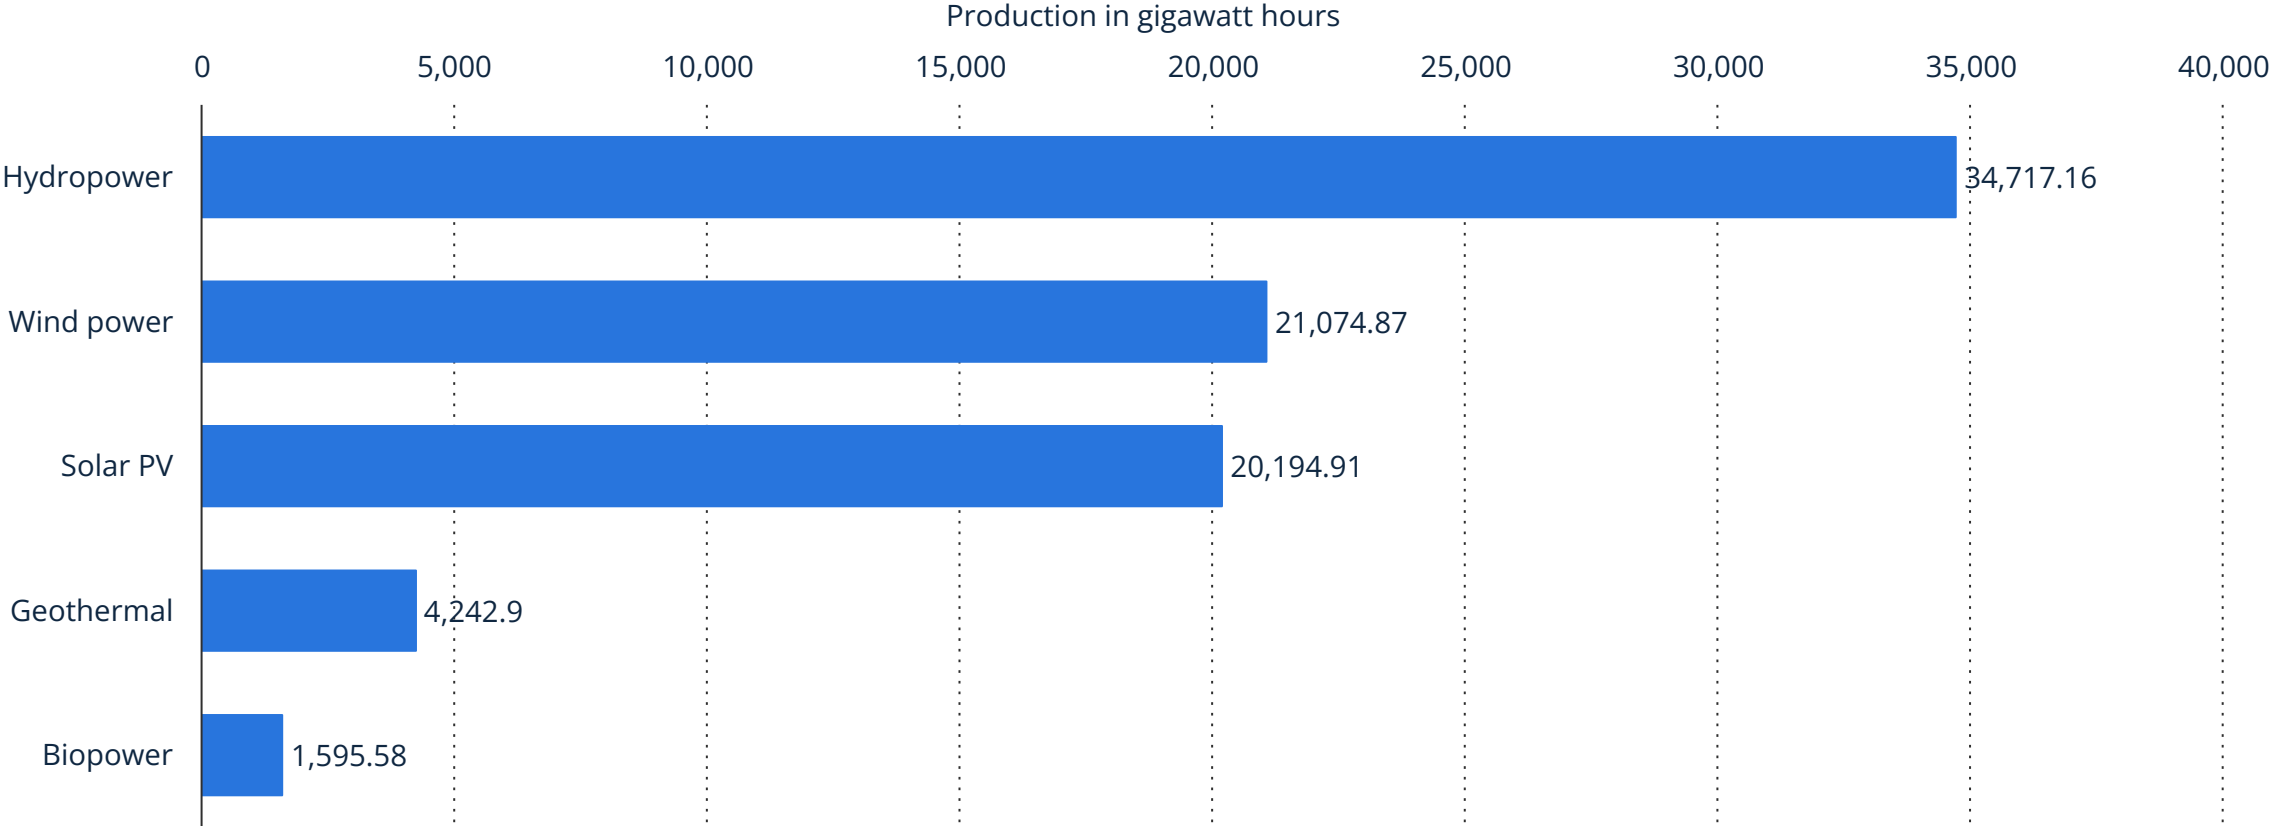

Renewable energy production in Mexico from 2011 to 2021 (in gigawatt hours)

Renewable energy production in Mexico 2011-2021

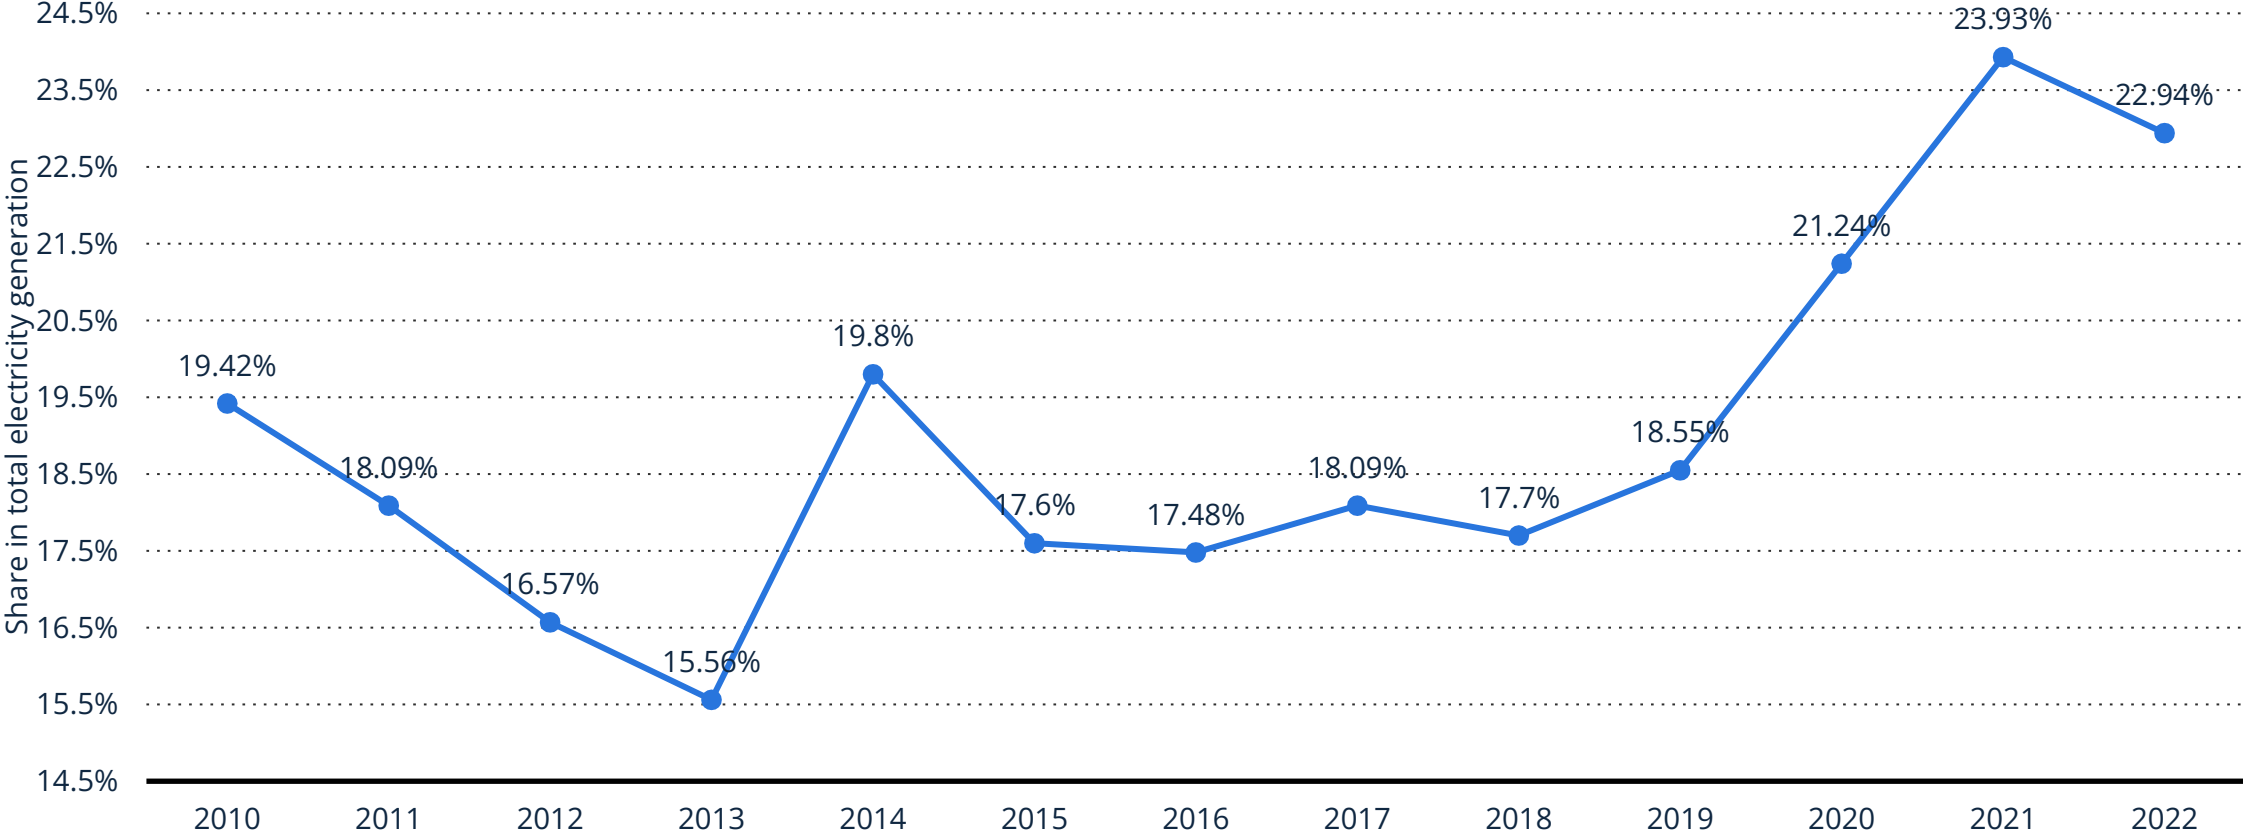

Renewable electricity generation in Mexico in 2021, by source (in gigawatt hours)

Renewable power production in Mexico 2021, by source

Share of renewables over the total electricity generation in Mexico from 2010 to 2022

Share of renewable energy in electricity generation Mexico 2010-2022

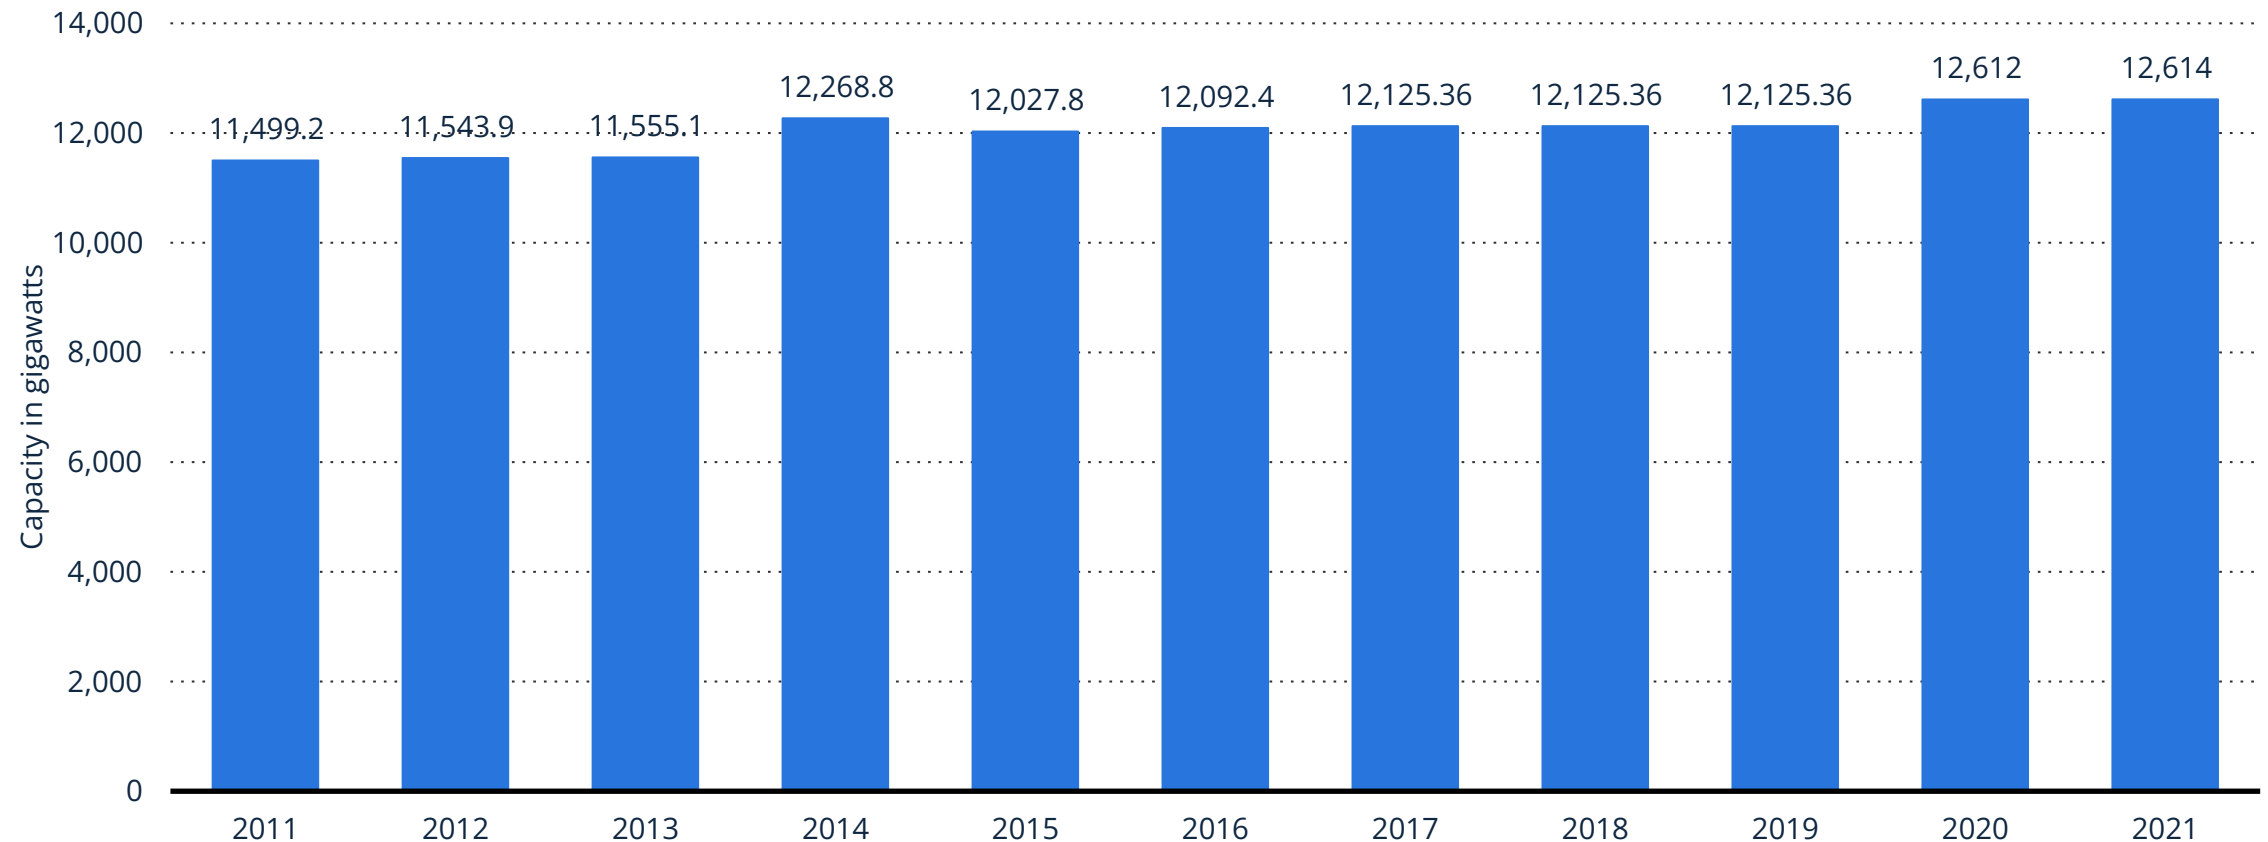

CHAPTER 03

Hydropower

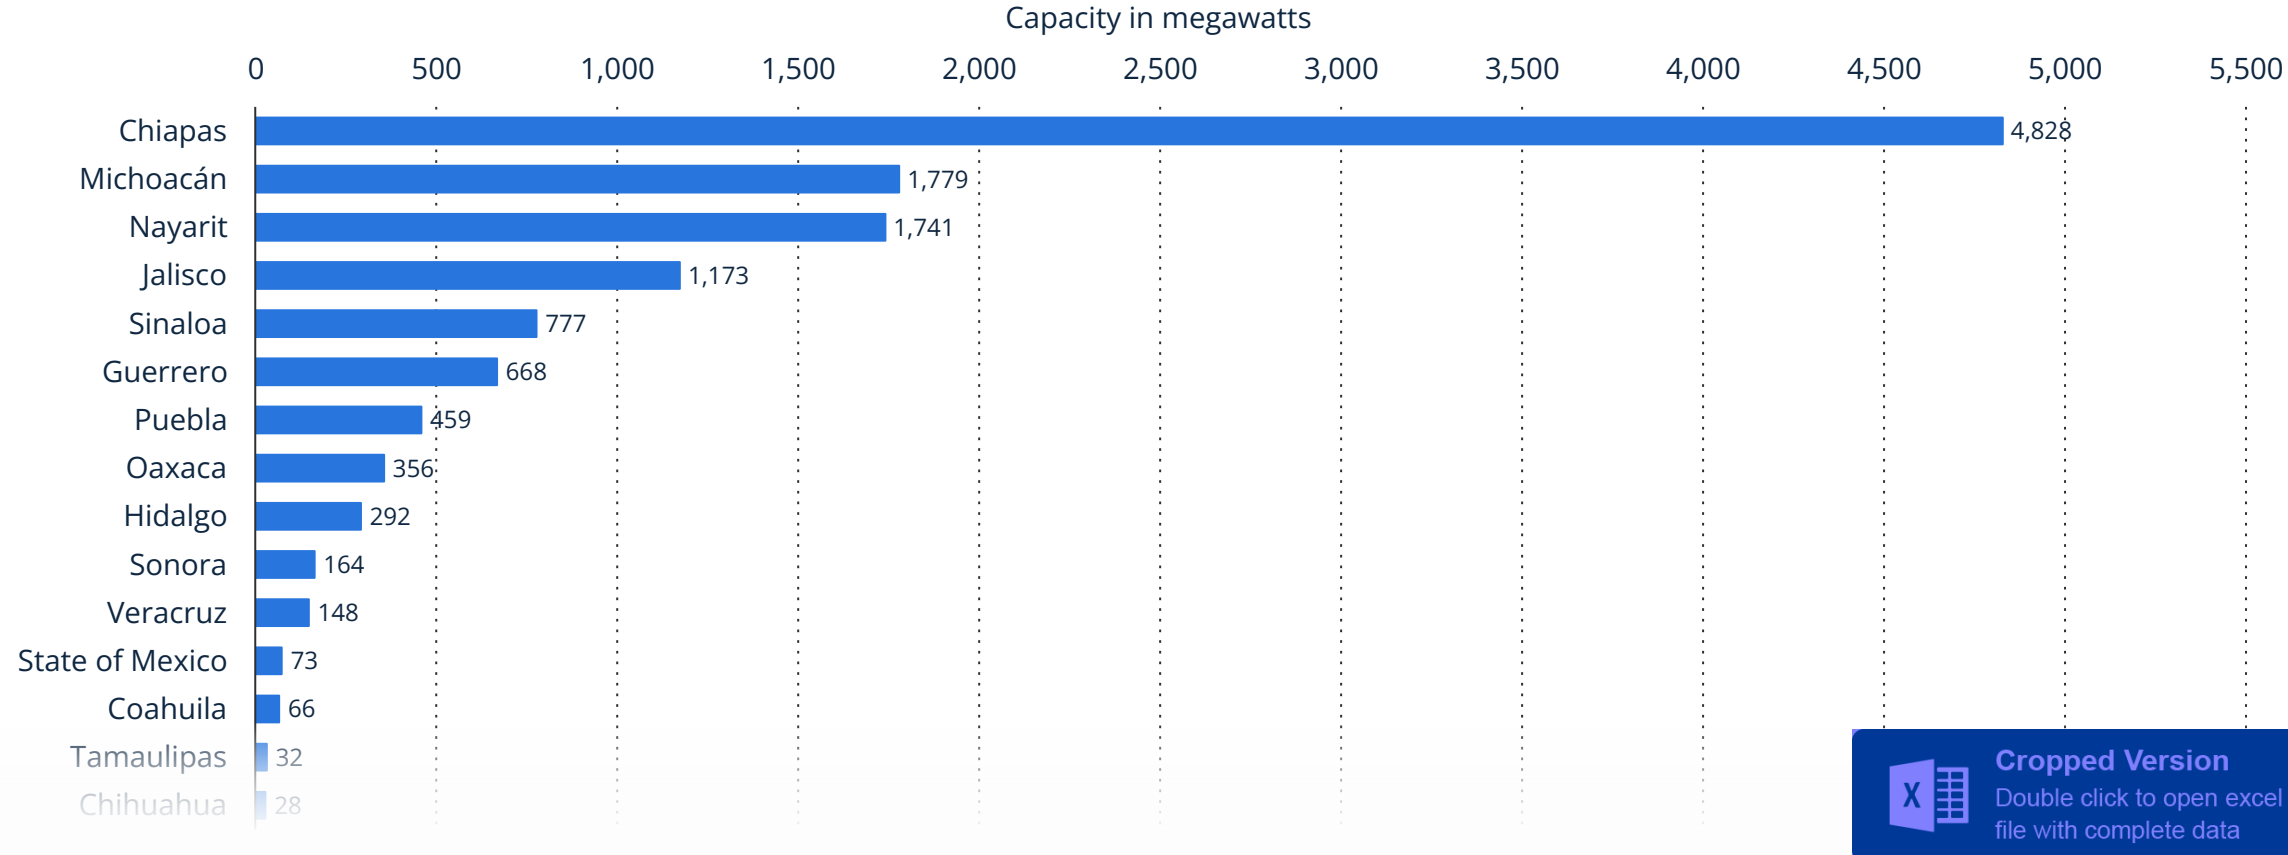

Installed capacity of hydroelectric power generation in Mexico from 2011 to 2022 (in gigawatts)

Mexico: installed capacity of hydroelectric power generation 2011-2022

Installed hydropower capacity in Mexico as of end of 2022, by state (in megawatts)

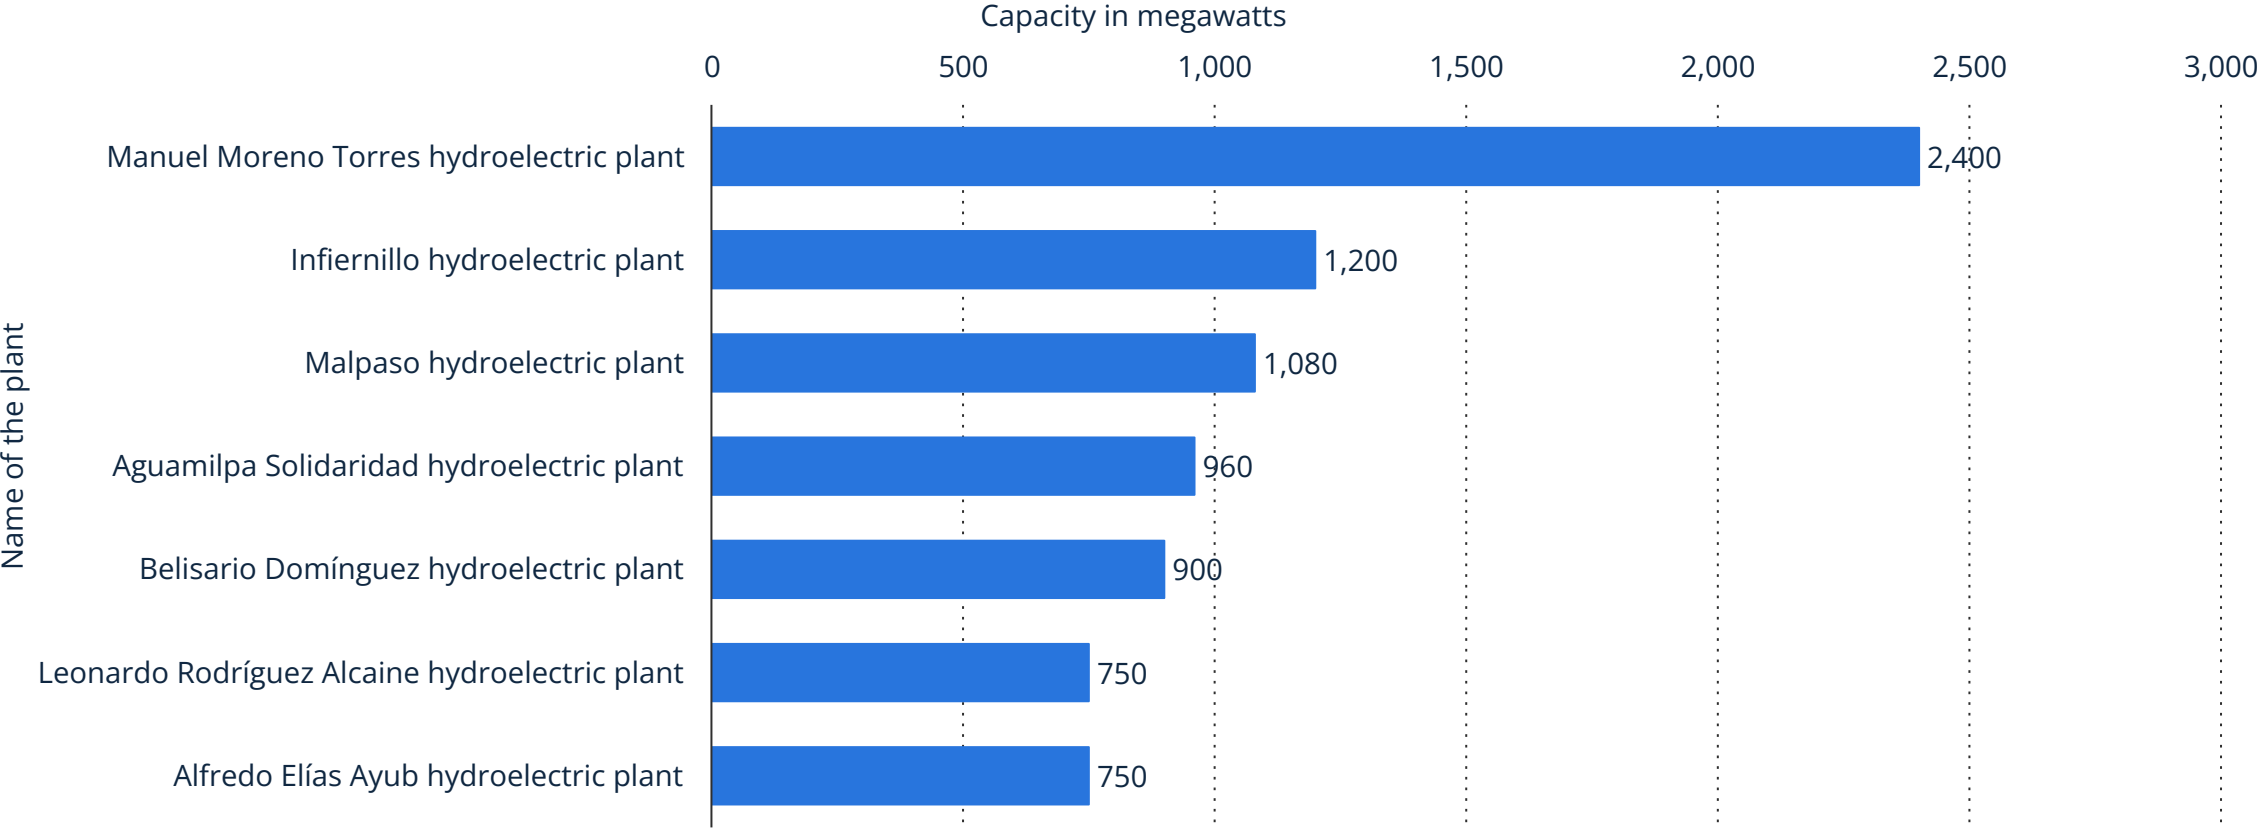

Hydropower generation capacity in Mexico 2022, by state

 **Cropped Version**
Double click to open excel file with complete data

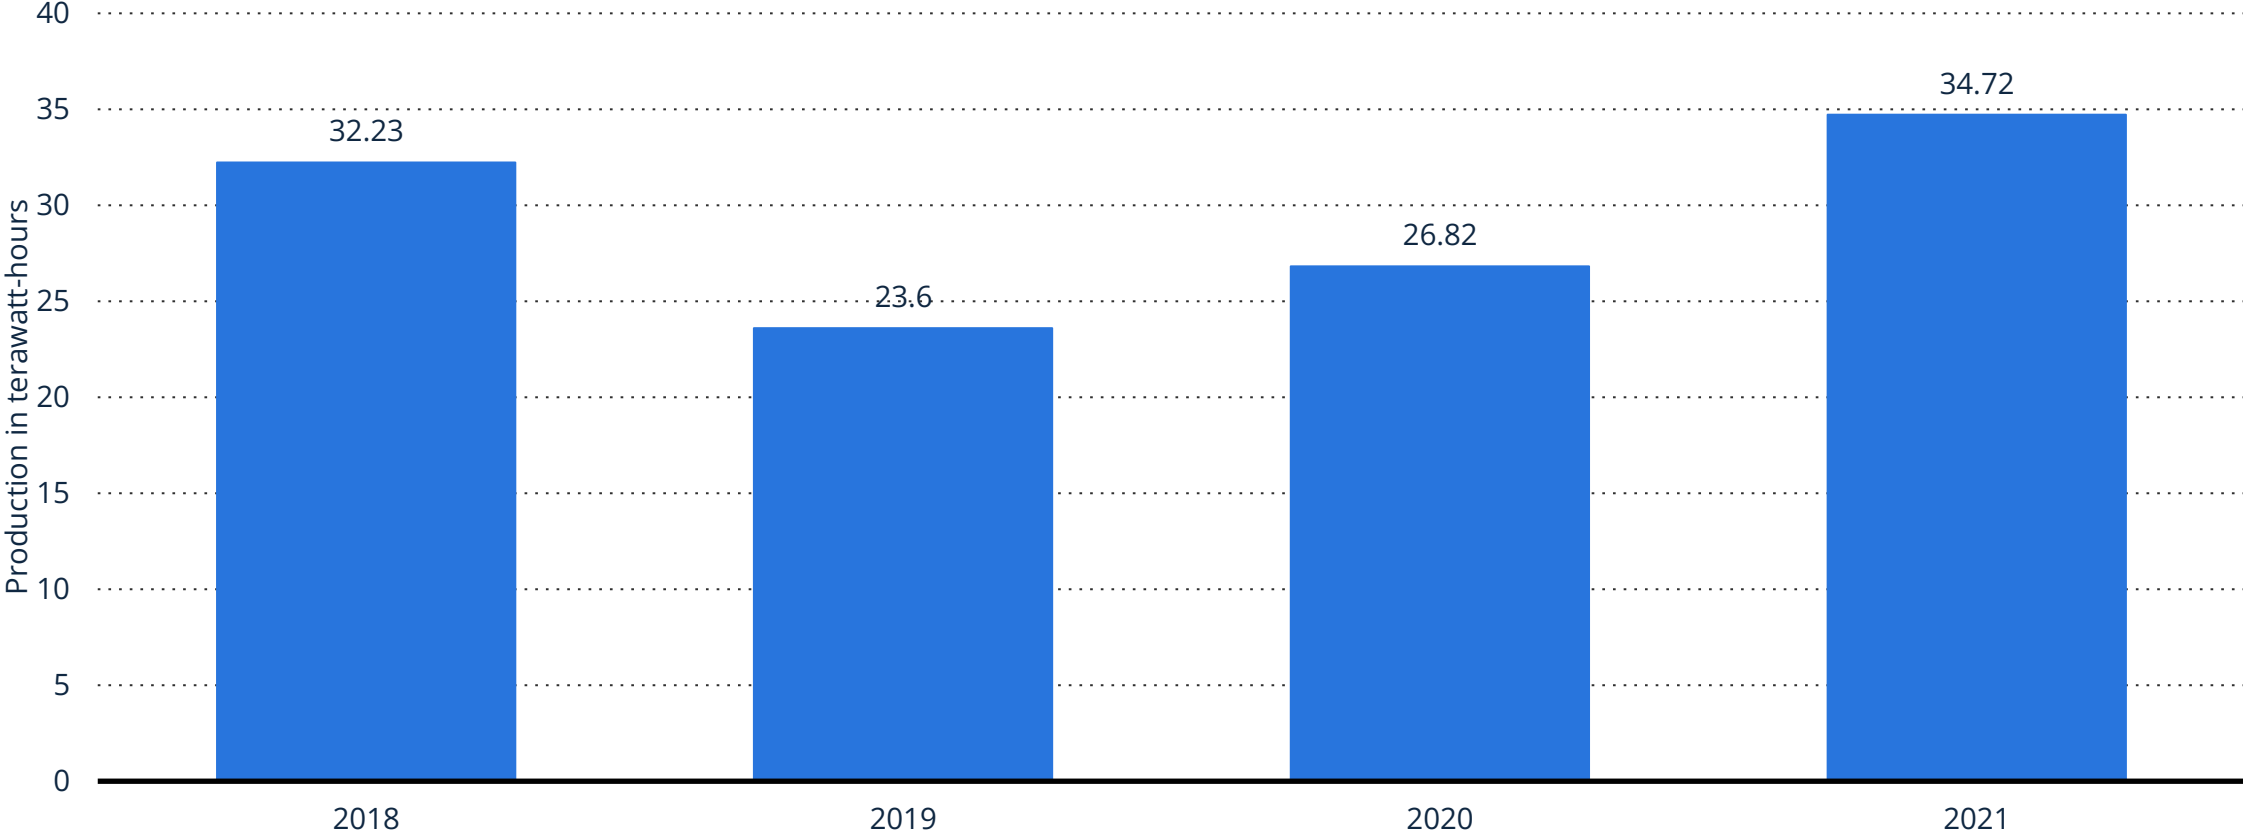

Capacity of the largest hydropower plants operating in Mexico as of May 2023 (in megawatts)

Largest operating hydropower facilities in Mexico 2023, by capacity

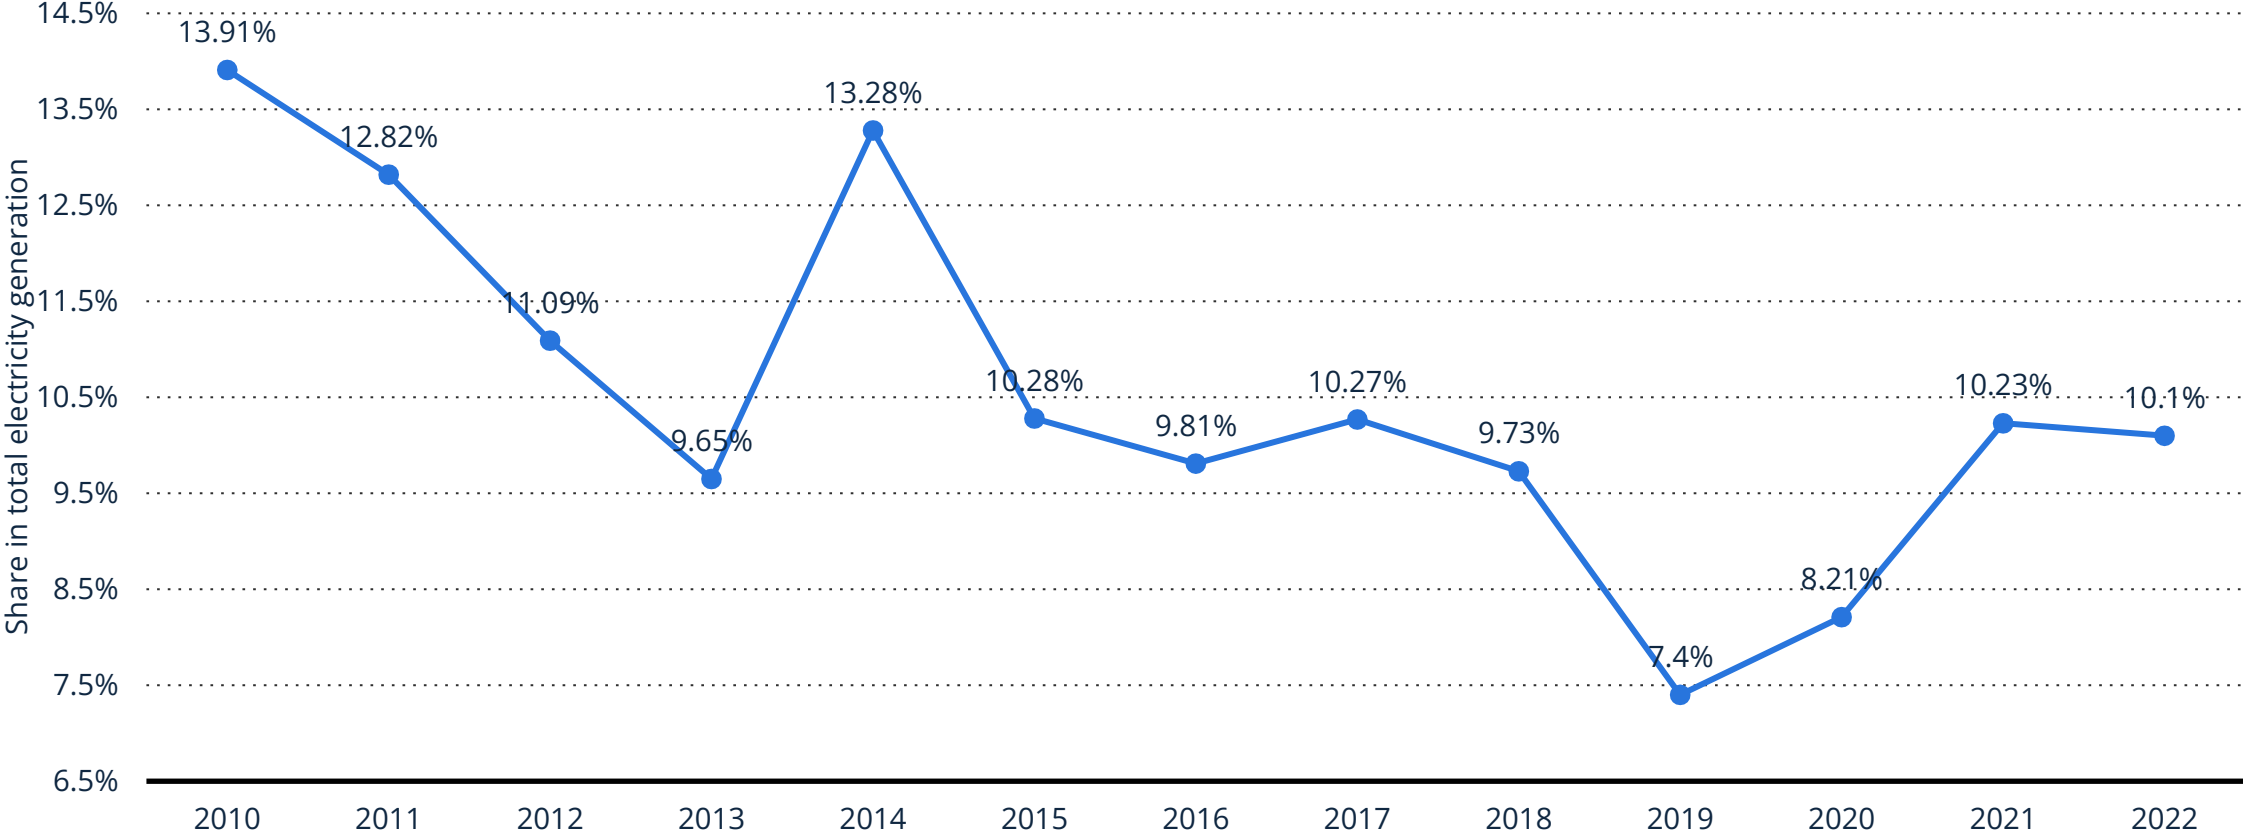

Hydroelectric power production in Mexico from 2018 to 2021 (in terawatt-hours)

Hydroelectric power production in Mexico 2018-2021

Share of hydropower over the total electricity generation in Mexico from 2010 to 2022

Share of hydropower in electricity production Mexico 2010-2022
