

***BRCA* testing and prevention in ovarian cancer**

Judith Balmaña, MD PhD
Familial Cancer Program
University Hospital Vall d'Hebron
jbalmana@vhio.net

Why Would We Consider Genetic Testing in Patients With Ovarian Cancer?

- Estimation of the **lifetime risk** of cancer in an individual and/or her family
- Identification of individuals at sufficient risk to consider **enhanced screening or prevention strategies**
- Identification of tumors that might respond to **specific therapies**

Ovarian cancer risk in *BRCA* mutation carriers

Ovarian cancer risk in *BRCA* mutation carriers

B *BRCA2* Carriers
