## Safety Guidelines

This manual contains notices which you should observe to ensure your own personal safety, as well as to protect the product and connected equipment. These notices are highlighted in the manual by a warning triangle and are marked as follows according to the level of danger:

---

### Danger

indicates that death, severe personal injury or substantial property damage **will** result if proper precautions are not taken.

---

---

### Warning

indicates that death, severe personal injury or substantial property damage **can** result if proper precautions are not taken.

---

---

### Caution

indicates that minor personal injury or property damage can result if proper precautions are not taken.

---

---

### Note

draws your attention to particularly important information on the product, handling the product, or to a particular part of the documentation.

---

## Qualified Personnel

Only qualified personnel should be allowed to install and work on this equipment. Qualified persons are defined as persons who are authorized to commission, to ground, and to tag circuits, equipment, and systems in accordance with established safety practices and standards.

## Correct Usage

Note the following:

---

### Warning

This device and its components may only be used for the applications described in the catalog or the technical description, and only in connection with devices or components from other manufacturers which have been approved or recommended by Siemens.

This product can only function correctly and safely if it is transported, stored, set up, and installed correctly, and operated and maintained as recommended.

---
