### *Release Notes for SB2SL*

© COPYRIGHT 2007–2012 by The MathWorks, Inc.

The software described in this document is furnished under a license agreement. The software may be used or copied only under the terms of the license agreement. No part of this manual may be photocopied or reproduced in any form without prior written consent from The MathWorks, Inc.

FEDERAL ACQUISITION: This provision applies to all acquisitions of the Program and Documentation by, for, or through the federal government of the United States. By accepting delivery of the Program or Documentation, the government hereby agrees that this software or documentation qualifies as commercial computer software or commercial computer software documentation as such terms are used or defined in FAR 12.212, DFARS Part 227.72, and DFARS 252.227-7014. Accordingly, the terms and conditions of this Agreement and only those rights specified in this Agreement, shall pertain to and govern the use, modification, reproduction, release, performance, display, and disclosure of the Program and Documentation by the federal government (or other entity acquiring for or through the federal government) and shall supersede any conflicting contractual terms or conditions. If this License fails to meet the government's needs or is inconsistent in any respect with federal procurement law, the government agrees to return the Program and Documentation, unused, to The MathWorks, Inc.

### Trademarks

MATLAB and Simulink are registered trademarks of The MathWorks, Inc. See `trademarks` for a list of additional trademarks. Other product or brand names may be trademarks or registered trademarks of their respective holders.

### Patents

MathWorks products are protected by one or more U.S. patents. Please see `patents` for more information.

## R2012b+

|                                              |   |
|----------------------------------------------|---|
| Second-Order Integrator Conversion . . . . . | 2 |
|----------------------------------------------|---|

## R2012a+

No New Features or Changes

## R2011b+

|                                                                          |   |
|--------------------------------------------------------------------------|---|
| Trigonometric Blocks Now Converted to Algebraic<br>Equivalents . . . . . | 6 |
| Translator Options Tab . . . . .                                         | 7 |

## R2011a+

No New Features or Changes

## R2010b+

|                                                           |    |
|-----------------------------------------------------------|----|
| Support for the Simulink For Each Subsystem Block . . . . | 12 |
| Saving and Restoring the Complete SimState . . . . .      | 13 |

**R2010a+**

|                                                                                                                       |    |
|-----------------------------------------------------------------------------------------------------------------------|----|
| ConstantAlgebraicExpression and<br>ConstantLogicalExpression Blocks Now Converted to<br>Simulink Constant Block ..... | 16 |
| Translator Options Dialog Box Change for Report Format<br>Tab .....                                                   | 17 |
| Multiple Procedure Blocks with Same Name are Now<br>Converted .....                                                   | 18 |
| Printing from Tree View Behavior Changed .....                                                                        | 19 |

**R2009b+**

|                                |    |
|--------------------------------|----|
| Translation Improvements ..... | 22 |
|--------------------------------|----|

**R2009a+**

|                                                                          |    |
|--------------------------------------------------------------------------|----|
| Translations Use Simulink Switch Block .....                             | 24 |
| Translations Use Simulink Integer Delay Block Where<br>Appropriate ..... | 25 |
| Translations Use Simulink Native Logic Blocks When<br>Requested .....    | 26 |

**R2008b+**

No New Features or Changes

**R2008a+**

|                                                                          |    |
|--------------------------------------------------------------------------|----|
| Unified Translator Options and Windows Preferences<br>Dialog Boxes ..... | 30 |
| New Save Button for User Preferences .....                               | 31 |
| New Translation Build Options Check Box .....                            | 32 |

|                      |    |
|----------------------|----|
| Fixed Bugs . . . . . | 33 |
|----------------------|----|

## R2007b+

|                                                                      |    |
|----------------------------------------------------------------------|----|
| Block Wiring Alignment Changes for Inports and<br>Outports . . . . . | 36 |
| Naming Changes . . . . .                                             | 37 |
| General Translation Changes . . . . .                                | 38 |
| Visual Changes . . . . .                                             | 40 |
| Fixed Bugs . . . . .                                                 | 41 |

# R2012b+

---

Version: 2.7.10  
New Features: No  
Bug Fixes: No
