

Unit 4 Global warming

主题语境——人与自然之社会发展与环境的关系

【课前素养锤炼】

2024·湖南长郡中学高考模拟]

Dear students,

As is known to all, June is World Environment Month. Therefore, on behalf of the Students' Union, I'm writing to make a proposal with the theme that we should do our part to protect the environment.

Firstly, we should take an active part in voluntary work concerning environmental protection as much as possible, which is necessary for us to do our part to the cause. Additionally, we should live a low-carbon life and raise the awareness of the significance of reducing carbon emission. **What is the most important is that** we should attach great importance to garbage sorting, through which we can save our resources by recycling and decrease environment pollution.

As high school students, it's our duty to make a contribution to protecting the environment. I sincerely hope we could make joint efforts and make our mother earth a greener one.
